Web Developer | Full Stack Developer

## CAREER OBJECTIVE

A programming graduate with hands-on experience gained through training at Orange Academy. Possesses strong foundational knowledge in software development, web development, and mobile app development, with practical experience in HTML, CSS, PHP, JavaScript, React, Laravel, Dart, and Flutter. Demonstrated the ability to apply technical skills in real-world projects during training and personal initiatives. Skilled in problem-solving and analytical thinking, with a focus on building efficient and user-friendly solutions. Strong communication and teamwork abilities developed through active participation and leadership in various group projects. Seeking to leverage academic background and training experience in a dynamic entry-level role, particularly in web and mobile development.

## Core Competencies

Software Development  
Performance Review  
Requirement Analysis

Critical Thinking  
Problem-Solving Ability  
Creativity and Innovation

Time Management  
Effective Communication  
Attention to Detail  
Team Collaboration

## Technical Knowledge

**Programming Languages:** PHP, Laravel, React, JavaScript, HTML/CSS

**Database:** SQL, MySQL, SQL Server

**Operating Systems:** Windows

**Software Development Practices (SDLC):** Scrum, Agile

**Other Tools:** MS Office (Word, Excel, PowerPoint), Git (Version Control Systems)

## Internship

**Orange Coding Academy,Aqaba**

**2024**

**Intern, Full Stack Web Developer**

### Work Experiences:

- Assisted in various IT operations, contributing to the maintenance and improvement of front-end and back-end systems.
- Supported the deployment of new technology solutions, gaining hands-on experience with enterprise IT environments.
- Collaborated with a team of IT professionals on daily tasks and long-term projects, enhancing teamwork and technical skills.
- Collaborated in the design and implementation of database management solutions, enhancing data integrity and performance.
- Participated in the integration and configuration of software solutions, gaining insights into the architectural decisions involved in scalable application development. Used programming languages such as Java, C++, and Python for development tasks

## Academic Projects

### 1. Intelligent Mailbox System (IMS)

**Description:** The Intelligent Mailbox System is designed to address the inefficiencies in traditional package delivery by providing a secure and technologically advanced solution. This system features a dual-password security mechanism, one for the user and one auto-generated by the system, enhancing security for package delivery. The IMS allows users to remotely manage mailbox operations via a custom application, including viewing delivery history and managing access permissions.

### 2. Management System Website:

**Description:** The Management System is a website designed to simplify the management of daily operations within an organization or company. The system aims to improve efficiency, reduce human errors, and provide practical solutions for both managers and employees. The site offers comprehensive tools for managing human resources, projects, operations, sales, inventory, accounting, or any other aspect of work that requires organization and precise tracking. **.HTML. CSS. JS**

### 3. Service Booking System:

**Description:** A Service Booking System is an online platform designed to allow customers to schedule and book services at their convenience. This system is commonly used by businesses. **.HTML. CSS. JS. LARAVEL**

## Education & Credentials

High School in Hussien Bin Tala

from : 1/ Dec/ 2024 to ; 30/MAY/2025

**Grade:** 73 / 100

## Personal Information

- **Nationality:** Palestine
- **Date of Birth:** 19 mar 1996
- **Marital Status:** Single
- **Languages:** Arabic and English
- **Driving License:** driver license
-
