-

PROJECTS

- Job Portal Website System(<https://github.com/lomaalshraideh/LUMAHIRE.git>): Developed a responsive job portal platform using HTML, CSS, and JavaScript, allowing users to browse job listings, submit applications, and filter opportunities by category or location.
 - Hasaneh – Ramadan Charity Website System (<https://github.com/lomaalshraideh/hasaneh.git>): Built a dynamic website system using HTML, CSS, and JavaScript to support Ramadan events, donations, and charity activities. The platform enables users to explore causes, make contributions, and engage with community initiatives through a responsive and user-friendly interface.
 - People Tales Website System (<https://github.com/lomaalshraideh/People-tales.git>): Developed a full e-commerce website using HTML, CSS, JavaScript, and PHP to promote and sell traditional and cultural products. The platform features product browsing, category filtering, and a shopping cart, aiming to preserve heritage while providing a smooth online shopping experience.
