

# Karam Daneh

## FullStack Web Developer

Seeking a position as a junior web developer in front and back end technologies. I'm always motivated to develop my skills. I am sure I can produce ideas to work in addition to a disciplined person, and I also have experience with that. By working in the banking sector, I am passionate about data technology, learning and working with this generation's technology users, innovators, and others to keep pace with the booming age of technology.
