Compassionate, young programmer who is enthusiastically eager to prove himself in the IT field. Have a great experience in working within a team to achieve objectives on time with excellence, along with the willingness to work for long hours, with great communication skills with supervisors, colleagues.

## Skills

- HTML
- CSS
- JavaScript
- UX/UI
- React
- Tailwind
- WordPress
- Bootstrap
- Java
- C++

## Professional Experience

### Experience

#### **Trainee at Coding Academy by Orange 09/2023 – 12/2023**

Intensive course in Front-end Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

- Managed version control and collaborative development using **Git** and **GitHub**, ensuring seamless teamwork and efficient code management.
- Utilized **HTML**, **CSS**, and **JavaScript** to create intuitive and visually appealing user interfaces, enhancing overall user experience.
- Leveraged **ReactJS** to develop dynamic and responsive web applications, enhancing user experience and interactivity.
- Independently conceptualized, developed, and deployed 5 projects showcasing a wide range of technical skills and creative problem-solving abilities.

Took 2 months internship in **ZenHR** as a Front-End Software Engineer where I worked with their design team and applied my skills in **HTML**, **CSS**, **JavaScript**, and **ReactJS** in translating what the UI/UX team provided to code with the Front-End team

## Projects

### **Book Library** ↗

The project aims to develop a user-friendly web application for book enthusiasts. It features a comprehensive homepage offering a warm welcome, an overview of services, and a search bar for easy book discovery. Users can register and log in to access exclusive services, with robust form validation ensuring data accuracy. The application boasts a rich Book Catalog Page, displaying detailed book information, and a User Profile Page for managing favorites and reading lists. Accessibility features have been integrated for an inclusive user experience, while data security is ensured through JSON server and Firebase integration.

### **Tourism In Jordan** ↗

Developed a dynamic React web application focused on promoting tourism in Jordan. The application showcases a curated list of the most visited places in Jordan through a user-friendly interface.

## Education

**Bachelor's degree in software engineering,** Hashemite University

**Coding Academy by Orange**

4 Months Front-end web developer Bootcamp

09/2023 – 12/2023
