## PROFESSIONAL SUMMARY

---

Dedicated and skilled Junior Data Scientist with a strong programming, problem-solving, and data science foundation. Seeking opportunities to leverage my technical skills in Python and data science, data analysis, and exceptional communication skills to contribute to developing cutting-edge AI solutions.

## EXPERIENCE

---

### ORANGE DIGITAL CENTER

Amman

#### *Data Science Bootcamp*

2023

- Collaborated on a Credit Score Prediction project, achieving 84% accuracy through the application of advanced techniques and diverse models
- Demonstrated technical proficiency by successfully deploying the predictive model on a web platform using Flask.

### ORANGE DIGITAL CENTER

Amman

#### *Graduation Training*

2023

- Developed a Sign Language Translation Model using TensorFlow; achieved 89% accuracy in real-time translation, enabling seamless communication for the hearing-impaired community.

## EDUCATION

---

### YARMOUK UNIVERSITY

Irbid

#### *Bachelor, Computer Information Systems*

2019-2023

- data-related disciplines, including database management, advanced systems, data warehousing, mining, big data analytics, and more.
- I created educational content for the university course "IT Communication Skills."
  - Developed and delivered course content on my YouTube channel, garnering more than 1700 views.
  - Created detailed slides with visualizations, exams, and questions to enhance the learning experience.
  - Conducted online sessions, and onsite at the university to engage with students directly.

## CERTIFICATES

---

• Share Data Through the Art of Visualization	(Google, Coursera)	2023
• Analyze Data to Answer Questions	(Google, Coursera)	2023
• Process Data from Dirty to Clean	(Google, Coursera)	2023
• Prepare Data for Exploration	(Google, Coursera)	2023
• Ask Questions to Make Data-Driven Decisions	(Google, Coursera)	2023
• Foundations: Data, Data, Everywhere	(Google, Coursera)	2023
• Databases and SQL for Data Science with Python	(IBM, Coursera)	2023
• Python Project for Data Science	(IBM, Coursera)	2023
• Python for Data Science, AI, and development	(IBM, Coursera)	2023
• Data Science Methodology	(IBM, Coursera)	2023
• Tools for Data Science	(IBM, Coursera)	2023
• What is Data Science	(IBM, Coursera)	2023
• Complete Python Bootcamp from Zero to Hero	(Udemy)	2022

## SOFT SKILLS

---

- Communication Skills.
- Storytelling.
- Presentations.
- Problem-Solving.
- Detail-Oriented.
- Critical Thinking.
- Thinking outside the box
- Creativity

## **TECHNICAL SKILLS**

---

- Programming Languages
  - Python
  - SQL
- Data Skills:
  - Data Mining
  - Data Visualization
  - Data Modeling
  - Data Preprocessing
  - Hypothesis Testing
  - Pattern Recognition
  - Data Analytics
  - Machine Learning
  - Database
- Programming:
  - Object Oriented Programming
  - Data Structure
  - Algorithms
