---

### Internships/Training:

**September 2021– present Coding Academy by Orange Amman - Jordan**

Full Stack web development bootcamp which extends for 7 months and is divided into two parts: frontend and backend. First I started with the frontend part which I was required to complete 5 projects. These projects were programmed from start to finish using HTML5, Css3, Javascript, Wordpress and ReactJs.

1. Building a portfolio using HTML and Css
2. Building an online quiz website using Javascript
3. Creating an E-commerce website with Wordpress
4. Building an E-commerce website using ReactJS
5. Building a car-rental website using ReactJS.

Below you can find my Github links below

<https://github.com/beshiralkhadra/frontend-reactJS-projects>

<https://github.com/beshiralkhadra/Frontend-projects>

Also I took the role of a scrum master in a ReactJS project and product owner in another.

---
