Full Stack Web Developer

CAREER OBJECTIVE

Ambitious software developer specializing in the MERN stack, eager to contribute to innovative projects within Jordan's technology industry. I hold a bachelor's degree in Software Engineering from The Hashemite University and have hands on experience from an intensive bootcamp at Orange Coding Academy, where I completed multiple projects. My core skills encompass software development, web technologies, and problem-solving, with practical expertise in JavaScript, Node.js, React.js, C++, and Java, demonstrated through both academic and training projects. I am highly analytical and detail-oriented, with a strong grasp of software development principles and best practices. Additionally, my strong communication and teamwork skills have been honed through collaborative projects and leadership roles. I am seeking a full stack development role where I can leverage my technical expertise, problem-solving abilities, and passion for building impactful web solutions.

Technical Skills

Front-End Technologies: HTML, CSS (Tailwind, Bootstrap), Java Script, React JS, Next JS, Redux. **Back-End Technologies:** Node JS, Express JS.

Database: Mongo DB, PostgreSQL, Firebase.

Software Development Practices (SDLC): Scrum, Agile.

Tools: MS Office (Word, Excel, PowerPoint), Git (Version Control Systems), Postman.

CMS: Odoo.

Soft Skills

Software Development Adaptability & Resilience Performance Review Data Analytics Skills Requirement Analysis	Critical Thinking Problem-Solving Ability Project Management Creativity and Innovation Customer-Centric Approach	Time Management Problem-Solving Ability Effective Communication Attention to Detail Team Collaboration

Experience

Coding Academy by Orange Dec 2024 - Present

Full Stack Web Development Trainee

Work Experiences:

- Gained hands-on experience with the MERN stack (MongoDB, Express.js, React.js, Node.js) through practical projects and coding Tasks.
- Developed and deployed full-stack applications, enhancing skills in both frontend and backend development.
- Participated in collaborative projects, applying Agile methodologies to manage and deliver high quality solutions.
- Participated in the design and implementation of database management solutions, improving data integrity and performance.

Artl Studio Mar 2024 – Jul 2024

Backend Developer Trainee

Work Experiences:

- Proficient in JavaScript and Node.js for backend development.
- Knowledgeable in REST API design and CRUD operations.
- Experience with MongoDB for NoSQL data storage.
- Basic understanding of web security practices (CORS, HTTPS, SSL/TLS, bcrypt).

Projects

1) LUMIERE [[GitHub Repository](#)] | [[Live Demo](#)]

Description: LUMIERE is an elegant and user-friendly online gift shop offering a wide range of products, including perfumes, face products, body care, and hair care for both men and women. Our mission is to provide customers with high-quality, natural products that enhance beauty and well-being.

Role: Developer.

Tool used:

- **Front-End:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS.
- **Back-End:** Firebase (Real-time Database and Authentication).
- **Figma, Trello.**

2) Rivana Farm [[GitHub Repository](#)]

Description: Rental web application. It enables users to explore and rent properties (apartments, houses, vacation homes, etc.), making the rental process more

convenient and efficient for both renters and landlords.

Role: Developer.

Tool used:

- **Front-End:** React.js, Redux, Tailwind CSS.
- **Back-End:** Firebase (Real-time Database and Authentication).
- **Figma, Trello.**

3) Jo Gamers [[GitHub Repository](#)]

Description: Jo-Gamers is a dynamic, responsive news platform built with the MERN stack (MongoDB, Express.js, React, Node.js). It allows journalists and users to publish, manage, and explore news articles across various categories. The platform supports real-time news updates, multimedia content, and interactive community features like comments, bookmarks, and sharing options.

Role: Product Owner.

Tool used:

- **Front-End:** React.js, Tailwind CSS, Axios (for API calls).
- **Backend-End:** Node.js with Express.js, MongoDB.
- **Figma, Trello.**

Education

Coding Academy by Orange- Zarqa, Jordan Dec 2024 – Present

6 Months Full-Stack Web Development Bootcamp

- Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT)

Hashemite University – Zarqa, Jordan

Sep 2020 – Sep 2024

Bachelor's Degree in Software Engineering.
