## EXPERIENCE

Full-Stack Web Development Trainee | Orange Coding Academy | Amman/Jordan

1/2025 – 4/2025

- **Front-end:** Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, enhancing the user experience with clean UI/UX principles.
- **Back-end:** Developed and maintained web applications using PHP and the MVC architecture. Optimized data management and ensured scalability by integrating APIs and back-end services efficiently.
- **Database:** Managed and optimized SQL Server databases. Created and executed queries for efficient data retrieval and ensured database performance.
- **Project Work:** Delivered 5 full-stack web projects, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications.
- **Collaboration:** Worked closely with teams to implement project requirements and ensure the seamless integration of front-end and back-end systems.

Computer Teacher | Ministry of Education

09/2024 – 12/2024

- Worked at a government school for three months under a temporary contract as a substitute teacher for the main instructor.
  - Gained experience in lesson planning and effective content delivery.
  - Taught Computer Science to students across different levels.
  - Engaged positively with students and contributed to creating a supportive and productive learning environment.
- 

## PROJECTS

Chef Craft- Cooking Courses Platform | ([GitHub](#))

- Independently designed and developed a full-stack cooking education platform that enables professional chefs to offer structured paid courses to users.
- Implemented role-based access using Laravel Breeze, providing separate registration and dashboard interfaces for chefs and regular users.
- Chefs can log in, select their specialized cuisine (e.g., Italian), create detailed courses, define duration and pricing, and upload content via a user-friendly dashboard.
- Regular users can register, browse available cooking courses by kitchen type, pay the course fee, and start learning through structured lessons.
- Built the frontend using Laravel Blade templates with responsive design powered by Bootstrap for smooth interaction across all devices.
- Managed authentication, user sessions, and security using Laravel Breeze starter kit.
- Developed and linked all backend functionalities using Laravel 11 with a MySQL database to manage users, roles, courses, payments, and progress tracking.

### [Online Doctor Appointment Booking System | \( GitHub\)](#)

- Developed a web application that allows patients to book appointments with specific doctors based on availability.
- Implemented features such as user registration, doctor profiles, appointment scheduling, and confirmation notifications.
- Utilized technologies like HTML, CSS, JavaScript, PHP, and MySQL to ensure a smooth and responsive user experience.
- Designed with a focus on usability, making the booking process simple and efficient for both patients and doctors.

### [Online Flower Store Website | Orange Coding Academy| \( GitHub\)](#)

- Created an easy-to-use and efficient online store for selling flowers with smooth navigation and a seamless shopping experience.
- Utilized **PHP** and the **MVC (Model-View-Controller)** architecture for clean and maintainable code structure.
- Implemented **SQL Server** for efficient database management.
- Ensured a smooth user experience through optimized front-end design and back-end logic, providing a reliable platform for customers to select and purchase flowers online.

---

## Volunteer work

volunteering at Computer Center | Yarmouk University

02/2024 – 6/2024

- Assisted students in resolving issues related to the e-learning system, ensuring smooth access to learning resources.
- Helped in activating various educational platforms such as Zoom, ensuring all students had the necessary tools for online learning.
- Provided technical support to students, guiding them through system issues and enhancing their overall digital learning experience.

---

## EDUCATION

Bachelor's degree in business information technology | Yarmouk University

09/2019 – 07/2023
