## CAREER OBJECTIVE

A graduate in **Financial and Banking Sciences** from Yarmouk University, with foundational skills in software development acquired through training at Orange Coding Academy. I have hands-on experience in programming languages and technologies such as **HTML, CSS, JavaScript, React, Laravel, and PHP**, which I applied during my training period. Additionally, I have completed a course in **Human Resources (HR)**, enhancing my understanding of organizational management and employee relations. With a strong background in financial and banking concepts, combined with technical programming skills, I am adept at problem-solving, analytical thinking, and teamwork. I am eager to leverage my academic knowledge, technical expertise, and HR training to contribute to dynamic roles in **FinTech** or fields that intersect finance and technology.

## Core Competencies

Web Development Process Evaluation Requirement Analysis	Critical Thinking Problem-Solving Ability Project Management Creativity and Innovation	Time Management Effective Communication Attention to Detail Team Collaboration
---	---	---

## Technical Knowledge

**Programming Languages:** HTML , CSS , JavaScript , PHP , Laravel , React

**Database:** MySQL

**Operating Systems:** Windows

**Software Development Practices (SDLC):** Scrum, Agile

**Other Tools:** Git (Version Control Systems)

## Academic Projects

### E-Commerce Website (PHP & MySQL)

- Developed a fully functional ECommerce website using PHP and MySQL for backend operations

Implemented user authentication, product management, shopping cart functionality, and order

Designed an admin panel to manage products, categories, and orders efficiently.

### Orange Coding School(School System Management)

- Designed and developed a fully functional school system management platform focused on student and course management.
- Implemented features such as student records, course catalog, and teacher assignments management.
- Used React to build a dynamic and responsive user interface, ensuring smooth interactions and fast updates without page reloads.
- Integrated user authentication for secure access to different user roles (admin, student, teacher).
- Focused on responsive design to ensure the platform is optimized for both desktop and mobile devices, providing a seamless experience for all users.

### **LuxeLodge(reservation system)**

- Designed and developed a fully functional reservation system for a hotel booking platform.
- Implemented features such as room booking, availability checks, and user account management.
- Used Laravel 10 for backend development, ensuring secure and efficient data handling and processing.
- Integrated a seamless reservation process with payment gateway for secure online payments.
- Focused on responsive design, making sure the platform is optimized for both mobile and desktop devices, ensuring a smooth user experience across all devices

---

### **Internship**

- IT Intern – Orange
- Dec – May
- Assisted in various IT operations at Orange, contributing to the maintenance and enhancement of both front-end and back-end systems.
- Supported the deployment of new technology solutions, gaining hands-on experience within an enterprise-level IT environment.
- Collaborated with a team of IT professionals on daily operational tasks and long-term technical projects, strengthening both teamwork and technical skills.
- Participated in the design and implementation of database management solutions, improving data integrity, accessibility, and overall performance.

### **Education & Credentials**

Yarmouk University, Jordan 2018- 202

- Nationality: Jordanian
- Date of Birth: July 12, 2000
- Marital Status: Single
- Languages: Arabic and English
