---

### CAREER OBJECTIVE

I am a Computer Science student at the Hashemite University, in addition to being a full-stack web developer specializing in the **MERN** stack. I have completed over 900 hours of technical training and 100 hours dedicated to soft skills development. I bring strong expertise in both front-end and back-end development, including proficiency in HTML, CSS, JavaScript, Java, APIs, React framework, and Bootstrap. I have strong problem-solving skills, allowing me to analyze complex challenges and develop efficient solutions. Passionate about utilizing my analytical problem-solving abilities to develop innovative and efficient solutions, I am seeking a web developer position to leverage my diverse technical skills in a dynamic, technology-driven environment.

---

### TECHNICAL SKILLS

**Frontend :** HTML , CSS ,JavaScript , Bootstrap , Tailwind , React , Redux , Figma , Next.JS

**Backend :** Node.js , Express.js , ORMs(Sequelize) , ODMs(Mongoose)

**Databases :** MySQL, MongoDB , PostgreSQL , Firebase

**Tools :** Git , Github , Postman , VS Code , Discord , Trello

**Software Development Practices (SDLC):** Scrum, Agile

**Operating Systems:** Windows

**CMS :** odoo

---

### SOFT SKILLS

Problem Solving	Time Management	Attention to Detail
Critical Thinking	Team Collaboration	Presentation skills
Fast & Self Learning	Communication	Adaptability

---

### EDUCATION

**Full-Stack Development Bootcamp**

Orange Coding Academy

Dec 2024 - Present

### **Conferences and Training Attended:**

Participated in the Epicode problem-solving competition, where I provided creative solutions to coding challenges and gained experience in analytical thinking and problem-solving. ([link](#))

## **PROFESSIONAL EXPERIENCE**

**Orange Coding Academy**  
Full Stack Web Development Trainee

**Dec 2024 - Present**

### **Work Experiences :**

- Developing **Full-stack** applications using the **MERN stack** (MongoDB, Express.js, React, Node.js) alongside HTML, CSS, and JavaScript to build dynamic and scalable web solutions.
- Building responsive and visually appealing **Front-end** interfaces with React, Redux, Tailwind, and Bootstrap, ensuring a seamless user experience.
- Designing and consuming **RESTful APIs** with Node.js, Express.js, and Sequelize, optimizing **Backend** performance and database interactions.
- Working with multiple **Databases**, including MongoDB, PostgreSQL, and Firebase, to efficiently manage and store application data.
- Delivered **10 full-stack web projects**, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications.

### **Problem Solving Course | Prime Academy**

Gained valuable insights and hands-on experience in problem-solving techniques and logical thinking, enhancing critical thinking and analytical skills.

## **PROJECTS**

### **1) Arouma – charitable fundraising ([Github Link](#))**

**Description:** A platform dedicated to supporting students in covering their university tuition fees. It provides a secure and transparent way for donors to contribute, ensuring that financial barriers do not hinder educational opportunities.

### **2) Elefy Task Management System ([Github Link](#))**

**Description:** Elefy is a Task Management System designed to help teams and organizations manage their daily tasks efficiently. It provides distinct roles for managers and team members, offering customized features for each role to streamline project workflows

### 3) Property Rental Platform ([Github Link](#))

Developed a feature-rich rental platform using React and Redux, and Firebase to handle backend operations. The platform streamlines the rental process, making it easier for landlords and tenant to connect and manage properties.
