Software Developer | Web Developer | Full Stack Developer

CAREER OBJECTIVE

Computer Science graduate from the University of Jordan and passionate Web Developer with hands-on experience in building dynamic web applications using HTML, CSS, JavaScript, PHP, Laravel, React, WordPress and MySQL. Skilled in creating responsive, user-centric solutions and collaborating within team-driven environments to deliver high-quality projects.

Core Competencies

Software Development
Web Development
Object-Oriented Programming
Data Structures

Database Management
Problem-Solving Ability
Project Management
Fast Self Learning

Effective Communication
Agile Methodologies
Time Management
Team Collaboration

Technical Knowledge

Programming Languages: JavaScript, PHP, HTML, CSS, Bootstrap, React.js, Laravel

Database: MySQL, SQL Server

Operating Systems: Windows

Software Development Practices (SDLC): Scrum, Agile

Other Tools: MS Office (Word, Excel, PowerPoint), Git, Postman, phpMyAdmin, Visual Studio Code

Internship

Orange Coding Academy, Balqa

Dec 2024 – Present

Intern, Full-stack Developer

- Mastered full-stack development, building end-to-end web solutions using HTML, CSS, JavaScript, PHP, MySQL, Laravel and React.
- Designed responsive, user-friendly interfaces and implemented efficient server-side scripting and database management.
- Enhanced soft skills and contributed to live projects during an intensive internship, delivering scalable and maintainable code.

Royal Scientific Society

Oct 2023 – Dec 2023

Java Developer Intern

Amman, Jordan

Work Experiences:

- Acquired comprehensive knowledge of Java programming language fundamentals and advanced concepts.
- Developed proficiency in object-oriented programming principles, enabling the creation of efficient and maintainable code.
- Implemented database connectivity using JDBC and ODBC, facilitating seamless integration between Java applications and various databases.

Academic Projects

Easy Book

Mar 2025

- A web-based platform designed to streamline the process of renting and listing properties, offering a smooth experience for both tenants and property owners.
- Allows tenants to search for rental properties and owners to list homes, villas, and apartments efficiently.
- **Technologies:** Laravel, HTML, CSS, Bootstrap, and JavaScript, ensuring a responsive, user-friendly, and modern interface.

Fruitables

Feb 2025

- E-commerce platform offering fresh produce with single purchases and weekly/monthly subscription options.
- Includes an admin panel for managing products, users, orders, subscriptions, and reviews.
- Features a user-friendly design, secure login, order history, and search/filtering capabilities.
- **Technologies:** HTML, CSS, JavaScript, Bootstrap, PHP, MySQL.

Cima Nards

Jan 2025

- This project provides an interactive platform for fans of movies, TV shows, and anime, offering personalized recommendations, AI-powered answers, and engaging quizzes. It also integrates YouTube API to enhance the user experience.
- The goal is to create an engaging and user-friendly space for entertainment enthusiasts.
- **Technologies:** HTML, CSS, JavaScript, Bootstrap, JSON APIs.

Internship And Graduation Project System

Jan 2024

- This project aims for transforming the traditional graduation project instructions and guidelines into a digital format. By doing so, we enhance accessibility, efficiency, and user-friendliness.
- **Technologies:** Django Framework, Python, Angular, PyTest, Bootstrap.

Education & Credentials

University of Jordan

Sep 2020 – Jun 2024

Bachelor's in Computer Science

Grade: 3 out of 4

Conferences and Training Attended:

- Participated in IEEE Extreme Contest (2022).
