Full Stack Web Developer

Career Objective

Ambitious software developer specializing in the MERN stack, eager to contribute to innovative projects within Jordan's technology industry. I hold a degree in Mechatronics Engineering from University of Jordan and have 6 months of hands-on experience from an internship at Orange Coding Academy, where I completed 10 projects. My core skills in JavaScript, Node.js, React.js, as demonstrated through both training and academic projects. I am adept at problem-solving and analytical thinking, with a strong grasp of standardization policies and procedures. My interpersonal and communication skills are well-honed through effective team collaboration and leadership roles in various projects. I am seeking a challenging full stack development role where I can leverage my technical expertise, problem-solving abilities, and teamwork skills.

Technical Skills

Front-End Technologies: HTML, CSS (Tailwind, Bootstrap), Java Script, React JS, next JS, Redux.

Back-End Technologies: Node JS, Express JS.

Database: SQL, MySQL, Mongo DB, PostgreSQL, Firebase, Sequelize

Content Management System: Odoo

Operating Systems: Windows.

Software Development Practices (SDLC): Scrum, Agile.

Tools: MS Office (Word, Excel, PowerPoint), Git (Version Control Systems), Postman.

Experience

Coding Academy by Orange

Dec 2024 – May 2025

Full Stack Web Development Trainee

Work Experiences:

- Enhanced user engagement through UX/UI design.
- Improved soft skills by focusing on communication, time management, teamwork, emotional intelligence, critical thinking, and adaptability.
- Performed daily individual tasks to advance technical skills.
- Collaborated with an IT team on short-term projects, enhancing both teamwork and technical skills to improve front-end and back-end systems.
- Participated in the design and implementation of database management solutions, improving data integrity and performance.

Maintenance Engineer

Oct 2022 – Apr 2023

AI Mirage Engineering and Technical Services Company

Work Experiences:

- Performed preventive and corrective maintenance on LG HVAC systems, including split units, VRF systems, and central AC.
- Diagnosed system faults and executed repairs to ensure high performance and energy efficiency.
- Coordinated with project teams to schedule regular maintenance and emergency interventions.
- Enhanced technical knowledge of advanced LG HVAC systems and control technologies.
- Maintained detailed service records and supported continuous improvement of maintenance processes.

Estimation and Sales Engineer

Nov 2021 – Sep 2022

Matrix Company

Work Experiences:

- Prepared accurate project cost estimates and competitive sales proposals to drive new business.
- Coordinated with sales and engineering teams to develop tailored solutions that met client requirements and budget constraints.
- Strengthened negotiation and client management skills through regular customer engagement.
- Managed multiple estimation projects concurrently, enhancing time management and organizational efficiency.
- Contributed to optimizing estimation workflows, improving response times and client satisfaction.

Internship

Scrum Master & Web Developer Intern

Fatfateet Al Sukkar Charity Website Project

May 2025 – Jun 2025

- Led an **8-member cross-functional team** as **Scrum Master** during a collaborative internship project to develop a full-stack website for **Fatfateet Al Sukkar**, a non-profit supporting diabetic patients.
- Organized and facilitated **weekly Agile sprints** using **Trello** for sprint planning, task tracking, and progress monitoring.
- Oversaw team workflow and maintained focus on delivering prioritized features aligned with client needs.
- Coordinated communication with charity stakeholders to gather requirements and ensure alignment on goals and user experience.
- Managed version control and collaborative coding through **GitHub**.
- Contributed to full-stack development using **React** (frontend), **Node.js** (backend), and **MongoDB** (database).
- Project website is scheduled to go live soon — fully responsive and accessible for the target audience.
- Developed key skills in **team leadership, Agile project management, stakeholder communication, and modern web development**.

Projects

1) Agriculture and Animals [\[GitHub Repository\]](#)

Description: Agriculture and Farms is a website that is concerned with agriculture and its accessories, and on the other hand, it is concerned with animals, vaccines and medicines.

Role: Owner

Tool used:

- **MERN Stack** (MongoDB, Express.js, React.js, Node.js, Tailwind CSS).
- **Figma, Trello**

2) Yaqeen [\[GitHub Repository\]](#)

Description: Yaqeen is a dynamic news platform designed to provide real-time updates, engaging articles, and interactive features for readers and journalists. It allows users to explore news articles across various categories and allows journalists to create, publish, and manage content. The platform also enables users to like, comment, share, and bookmark articles for a personalized news experience.

Role: developer.

Tool used:

- **MERN Stack** (MongoDB, Express.js, React.js, Node.js, Tailwind CSS).
- **Figma, Trello**

3) Mishkah [\[GitHub Repository\]](#)

Description: Mishkah is a web platform designed to help individuals who have innovative project ideas but lack the necessary funds to execute them. Users can submit their projects, and donors can contribute to support them. Our goal is to bridge the gap between creative minds and generous supporters.

Role: Product Owner.

Tool used:

- **PERN Stack (PostgreSQL, Express.js, React.js, Node.js, Tailwind CSS).**
- **Figma, Trello**

Education

Coding Academy by Orange, Jordan

Dec 2024 – May 2025

- Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Samaya university for Technology (PSUT)

University of Jordan, Jordan

Sep 2016 – June 2021

Bachelor's Degree in Mechatronics Engineering
