ArtRealm

is a digital platform for artists and art enthusiasts to explore, showcase, and connect with the world of art.

Technologies :React.js, Tailwindcss , Node.js, Redux.js, PostgreSQL

Experience

Coding Academy by Orange

2023-02 – 2023-08

- Gained a solid foundation in full stack web development, covering front-end and back-end technologies.
- Built responsive and user-friendly web interfaces to improve user experience.
- Worked on multiple projects, both individually and in groups, to apply learned technologies and complete real-world web development tasks.
- Collaborated with team members on group projects, utilizing effective communication and task coordination to deliver project milestones.
- Employed agile methodologies, such as Scrum or Kanban, to promote iterative development and adaptability in project management.
- Worked extensively with Trello as an agile project management tool, ensuring efficient organization and task tracking within groups.
- Utilized GitHub organization to manage code repositories, enabling seamless collaboration and version control.
- Acquired experience in using version control systems like Git to manage code and collaborate with peers.
- Gained exposure to project planning, organization, and time management to meet project deadlines effectively.

Skills

Front-end

HTML, CSS(Bootstrap, Tailwind), Sass, JavaScript, React.JS, Redux.js

Back-end

Node.JS, Express.JS

Databases

MongoDB, MySQL

CMS

WordPress
