### CAREER OBJECTIVE

Passionate **Full-Stack Web Developer** with a **Software Engineering** graduate from Al-Hussein Bin Talal University. Currently, I am refining my skills through intensive training at Orange Coding Academy, where I have successfully completed six projects in various roles, including Scrum Master, Product Owner, Quality Assurance, and Web Developer. These experiences have strengthened my technical expertise, problem-solving abilities, and teamwork skills.

Passionate about developing scalable and efficient web solutions, I am eager to apply my knowledge in real-world projects, contribute to innovative teams, and continuously grow in the field of web development.

---

### TECHNICAL SKILLS

- Frontend: HTML, CSS (Tailwind, Bootstrap), JS, React JS, Redux toolkit ,Next JS
  - Backend: Node JS, Express.
  - Database: MongoDB, PostgreSQL, Sequelize, Firebase, MySQL.
  - CMS :Odoo
  - Software Development Practices (SDLC): Scrum and Agile.
  - APIs tools: Postman.
  - Other Tools: Figma, Git (Version Control Systems) using GitHub, Trello and AI Tools.
- 

### SOFT SKILLS

- Self-Learning
- Critical Thinking
- Project Management
- Software Development
- Data analysis and documentation writing
- Effective Communication

## EXPERIENCE

### Trainee at Coding Academy by Orange

DEC 2024 – Present

- **Front-end:** Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, Bootstrap, and Tailwind, ensuring a seamless user experience with clean UI/UX principles.
- **Back-end:** Built and maintained web applications using Node.js and Express.js, developing scalable and efficient server-side logic.
- **Database:** Managed and optimized databases, working with SQL, MySQL, MongoDB, PostgreSQL, and Firebase, utilizing Sequelize for database interaction.
- **Project Work:** Successfully developed 8 full-stack web projects, applying technical skills to real-world scenarios and building scalable, maintainable applications.
- **Collaboration & Tools:** Worked closely with teams to implement project requirements, using GitHub, Figma, Trello, and Visual Studio Code for seamless workflow management. Familiar with Scrum and Agile methodologies to ensure efficient project execution.

### Trainee at Social Security Corporation

July 2024 -September

- Developed Web Applications: Assisted in the development of web applications using ASP.NET MVC, focusing on creating scalable and maintainable solutions.
- Designed and Implemented Features: Contributed to designing and implementing new features, including user authentication, authorization, and dynamic content management.
- Integrated Entity Framework: Utilized Entity Framework to manage data access, including configuring database contexts, performing CRUD operations, and optimizing query performance.
- Enhanced User Interfaces: Improved the user interface with HTML, CSS, and JavaScript/jQuery to ensure a responsive and user-friendly experience.
- Troubleshoot Technical Issues: Identified and resolved bugs and performance issues in both the front-end and back-end, ensuring smooth operation of web applications.
- Collaborated with Development Team: Worked collaboratively with a team of developers, participated in code reviews, and contributed to project planning and documentation.

## PROJECTS

### LUMIERE Gift website

- Description: LUMIERE is an elegant and user-friendly online gift shop offering a wide range of products, including perfumes, face products, body care, and hair care for both men and women. Our mission is to provide customers with high-quality, natural products that enhance beauty and well-being.
- Role: Scram Master.
- Tool used:
  - Front-End : HTML, CSS, JavaScript, Bootstrap, Tailwind CSS.
  - Back-End : Firebase (Real-time Database and Authentication).
  - Figma, Trello

## **MISHKAH (Charity Donation & Assistance Management System)**

- Description : MISHKAH helps people who have great project ideas but lack the funds to turn them into reality. They can share their projects on the platform, and kind donors can support them financially.
- Role: Web Developer
- Tools Used:
  - Front-End React.js , Tailwind CSS ,React Router, React Redux.
  - Back-End : PostgreSQL
  - Figma, Trello

## **Elefy Task Management System**

- Description: Elefy is a Task Management System designed to help teams and organizations manage their daily tasks efficiently. It provides distinct roles for managers and team members, offering customized features for each role to streamline project workflows
- Role: Product Owner.
- Tools Used:
  - Front-End : React.js , Tailwind.CSS.
  - Back-End : Firebase (Real-time Database and Authentication).
  - Figma, Trello

---

## **EDUCATION**

**DEC 2024 - Present**

### **Coding Academy by Orange - Zarqa, Jordan**

- 6-Month Full-Stack Web Development Bootcamp.
- Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT)

### **Al-Hussein Bin Talal University - Maan, Jordan**

**February 2021 - Octobe 2024**

- February 2021 –September 2024
- Grade:very good
