Full Stack Web Developer

CAREER OBJECTIVE

A highly motivated and adaptable individual, I am currently developing a robust foundation in full-stack software development at Orange Coding Academy, building upon the hands-on experience gained through completing 8 diverse individual and collaborative web development projects. I am now eager to contribute to a dynamic team, applying my growing expertise in ASP.NET Core MVC, C#, ASP.NET Core API , and SQL to develop scalable and efficient back-end systems, alongside leveraging front-end technologies like HTML5, CSS, Bootstrap, JavaScript, Angular, and TypeScript to build engaging user interfaces. I am passionate about continuous learning and driven to contribute to projects that deliver tangible value, with a commitment to writing clean, maintainable, and well-documented code.

Seeking an opportunity to apply my expertise, contribute to impactful projects, and grow as a Full Stack Web Developer in a dynamic environment.

Technical Skills

Front-End: HTML/CSS, JavaScript, Bootstrap, TypeScript, Angular.

Back-End: C# (OOP), ASP.NET Core MVC, ASP.NET Core API.

Database: SQL, SQL Server.

Operating Systems: Windows.

Software Development Practices (SDLC): Scrum, Agile.

Tools: Visual Studio, Visual Studio Code, Figma, Trello, GitHub.

Soft Skills

Software Development	Requirement Analysis	Time Management
Process Evaluation	Creativity and Innovation	Effective Communication
Performance Review	Customer-Centric Approach	Attention to Detail
Data Analytics Skills	Learning Agility	Team Collaboration
Proactive Mindset		

Experience

Orange Coding Academy, Irbid/Jordan

Full Stack Web Development Trainee

Work Experiences:

Dec 2024 – Present

- Front-end:** Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, TypeScript and Angular, enhancing the user experience with clean UI/UX principles.
- Back-end:** Built and maintained web applications using C#, .NET MVC, and ASP.NET Core Web API. Ensured efficient data management and scalability by consuming APIs and integrating back-end services.
- Database:** Managed and optimized SQL Server databases. Created and executed queries for efficient data retrieval, and ensured database performance.
- Project Work:** Delivered 8 full-stack web projects, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications.
- Collaboration:** Worked closely with teams to implement project requirements and ensure the seamless integration of front-end and back-end systems.

N Design Studio, Dubai/UAE
Freelance Social Media Coordinator
Work Experiences:

Feb 2022 – Nov 2024

- Managed and scheduled engaging content for the company's LinkedIn profile, contributing to increased brand visibility and professional networking.
- Generated monthly performance reports, providing insights into key metrics and areas for improvement.

Projects

1) Angular Project Artify [Github](#)

Description: Artify – An e-commerce web app for selling art supplies, built with HTML, CSS, TypeScript, Bootstrap 5, and Angular. Integrated external APIs for dynamic product data. Led the team as Product Owner, ensuring Agile practices and smooth sprint delivery.

2) HR Management System [Github](#)

Description: Developed an HR Management System for **ByteCraft** using HTML, CSS, JavaScript, C#, SQL, and ASP.NET Core MVC. The system includes role-based dashboards for employees, managers, and HR personnel, focusing on attendance tracking, task management, leave requests, and employee evaluations. It features secure authentication, profile management, and advanced options like voice search and password encryption.

3) Lengo Loop Project [Github](#)

Description: Lengo Loop is a Language Institute platform built to support language learners by offering essential resources like **book borrowing** and **study room rentals**. It tackles challenges related to limited access to quality education and provides focused study environments. Future plans include exclusive books, language proficiency testing, cultural workshops, online training, flexible course scheduling, and programs for children and teens.

4) Quiz Website [Github](#)

Description: Developed a quiz website for **Solveo**, a platform specializing in creating innovative web solutions for businesses. The project aimed to enhance recruitment processes by offering multiple quizzes, including IQ, English, and Technical assessments. Built with HTML, CSS, and JavaScript, the platform provided a user-friendly interface for effective candidate evaluation.

Education

Coding Academy by Orange, Jordan.

Dec 2024 – Present

- Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Samaya university for Technology (PSUT).

Middle East University, Jordan

Out 2017 – Feb 2022

Bachelor's degree in Business Administration
Grade: Very Good

Conferences and Training Attended:

- HR Management
- E-Marketing
- Social Intelligence
- Project Management
