## Education

- BACHELOR OF COMPUTER SCIENCE | BALQA APPLIED UNIVERSITY | FEB-2024 .
- CODING ACADEMY BY ORANGE | JUL-2023 .

## Skills & Abilities

- Excellent interpersonal and communication skills
- Teamwork and collaboration
- Time management
- Poised under pressure
- Problem-solving
- Continuous learning

## Projects

- **Portfolio:** My HTML and CSS portfolio project demonstrates my abilities through a visually appealing and responsive website that showcases my work effectively. I prioritized clean code and thoughtful design to create a professional and user-friendly experience for visitors.
- **Quizfy:** my project, I utilized JavaScript, HTML, and CSS to create an engaging and dynamic online quiz platform. Through the seamless integration of these technologies, users can experience interactive quizzes with real-time feedback, enhancing their learning experience.
- **Organic vegetable e-commerce website:** developed an organic vegetable e-commerce website using PHP, HTML, CSS, Bootstrap, and SQL, creating a visually appealing and user-friendly platform for customers to browse and purchase organic produce. The website incorporates responsive design and database functionality to enhance the shopping experience.
- **vehicle rental website:** I designed and developed a vehicle booking website using Laravel for the back-end and HTML, CSS, Bootstrap for the front-end, with MySQL as the database. The platform allows users to easily book and manage their vehicle reservations, showcasing my proficiency in Laravel, front-end technologies, and database management.
- **Contract System Application (React & PHP):** I have developed a contract system application using React for the frontend and PHP for the backend, with API integration for seamless data communication. The application features separate admin and user interfaces, allowing efficient management and handling of contract-related processes. implementing various essential features, including contract creation, editing. And working collaboratively with a team.
