Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

#### Training Front-End Web Developer

#### Jordan Computer Society

2021-2022 Three month of training front-end web developer

### Projects

- 1) [Jordan Online Election System](#) Description:Developed "Jordan Online Election System" using the PERN stack to digitize the electoral process. The system includes secure user authentication, real-time voting updates, and an intuitive interface, enhancing transparency and simplifying vote tallying.

- 2) Showzone** Description: Contributed to "Show zone," a web app built with Firebase, JS, HTML, CSS, and Bootstrap. As Scrum Master, I coordinated development, managed agile processes, and ensured timely project delivery. The platform includes dynamic search, user authentication, and personalized watch lists.
