

# Sami Yaseen

FULL STACK DEVELOPER

[sami.s.yaseen@gmail.com](mailto:sami.s.yaseen@gmail.com) | +962 790274961 | [LinkedIn](#) | [GitHub](#)

---

## Objective

Seeking an entry-level web developer role to apply my technical skills developed during my training at Orange Academy. Skilled in HTML5, CSS3, JavaScript, and PHP, with foundational knowledge of Laravel. Experienced in building interactive and responsive web applications, designing well-structured database schemas, and developing robust backend functionalities. Dedicated to writing high-quality code in collaborative, Agile environments, and eager to expand my expertise in web technologies. Ready to contribute effectively as a team member and bring creative solutions to complex projects.

---

## Technical Skills

Programming Languages: HTML5, CSS3, JS, PHP

Libraries & Frameworks: Bootstrap, Laravel

Database: SQL, MySQL

Other Tools: GitHub, Git

---

## Experience & Projects

### 1- Waggy: ([project link](#))

Technologies used: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

- Waggy, an eCommerce platform for cat and dog lovers, offers everything from clothing and food to toys and essential tools. Developed as part of our Full Stack journey, this project allowed us to combine technical skills with practical team collaboration, creating a space where pet owners can find all they need to keep their furry friends happy and healthy!

In this project, I took the lead in developing the Admin Dashboard, which enables seamless management of the platform's operations.

### 2- MyJourney: ([project link](#))

Technologies used: HTML, CSS, JavaScript, Bootstrap

- Developed a travel planning website offering customized itinerary creation and seamless navigation through diverse travel options. This platform allows users to explore hotels and restaurants. Built with a focus on intuitive UX/UI, the project utilizes HTML, CSS, JavaScript, and sorting options to help users organize their journeys easily.
-

## **Education**

**Orange Coding Academy, Amman-Jordan**

*Sep 2024 – Present*

**Intern, IT Department**

- Gained practical experience in full-stack web development with technologies such as HTML, CSS, JavaScript, Bootstrap, PHP, and Laravel.
- Built and maintained scalable web applications, leveraging object-oriented programming (OOP) principles and Model-View-Controller (MVC) architecture.
- Assisted in database design, management, and optimization using MySQL, PhpMyAdmin, and SQL, ensuring high data integrity and performance.
- Contributed to both front-end and back-end development, improving user interfaces and functionality for web projects.
- Collaborated with a team of developers to deploy, integrate, and optimize software solutions, refining skills in teamwork and problem-solving.

**Bachelor of Degree in Computer Science**

*Zarqa University, Jordan*

*2020 – 2024*

Graduated with **Very Good GPA**
