## PROFILE SUMMARY

Highly motivated Junior Full Stack Web and Mobile Developer with a passion for creating innovative and user-friendly applications. Skilled in front-end and back-end development, utilizing modern technologies such as HTML, CSS, JavaScript, React, Node.js, and mobile frameworks like React Native. Strong problem-solving abilities and a collaborative mindset, adept at working in agile development environments. Committed to continuous learning and staying updated with industry trends. Seeking an opportunity to contribute to a dynamic team and deliver exceptional user experiences

## WORK EXPERIENCE

### Full Stack Web & Mobile Development ,Trainee

Feb,2023- Present

#### Amman Coding Academy by Orange

- Expanded expertise in modern technologies, including JavaScript (React), Node.js, Express.js, Mongo DB, SQLite, and React Native.
- Delivered and successfully completed 12 projects, utilizing various technologies, both independently and as a collaborative team member.

### Flutter Developer ,trainee

Jun,2019-Aug,2019

#### Jordan Computer Society, Amman

- A training opportunity in the field of developing smartphone applications in Dart and Flutter lasted for three months and was assisted in the construction of many projects during this period.

## PROJECTS

### DevBridge

#### Online Registration

- I collaborated with a team at the Orange Coding Academy to develop a registration site for a training platform. The project involved utilizing technologies such as Bootstrap, JavaScript, Html, and CSS.
- As part of the project, we employed various techniques including requirement analysis, UI/UX design, and client-side validation.

### Al-Rayyan

#### Ramadan Theme,1st place Hackathon Amman

- Our project achieved first place in the Amman Coding Academy Ramadan hackathon.
- A site with a Ramadan theme that was programmed by HTML and CSS compatible with all screen sizes. Its general idea is to provide excess food and not waste it through specialized teams from our site to collect this food.

## **Chatopedia**

### **ChatBot based on GPT3.5-Turbo**

- an AI-powered chatbot using OpenAI's ChatGPT, and Node.js, and React.
  - developed a chatbot capable of engaging in meaningful conversations with users, providing relevant and natural language responses.
- 

## **PROFESSIONAL SKILL**
