Summary

A Computer science graduate specializing in web development, proficient in front-end technologies (HTML, CSS, JavaScript) and back-end frameworks such as NodeJs. Adept at creating dynamic, user-friendly web applications, combining technical expertise with a passion for innovation. Eager to contribute to dynamic Development teams in creating cutting-edge digital solutions. Recognized for effective communication skills and the ability to collaborate seamlessly with Cross- Functional teams to analyze requirements and implement solutions that align with project objectives.

Education

- **Coding Academy by Orange, Front-end developer** Sep 2023 — Dec 2023
- **Bachleor degree in Computer Science**, The Hashmite University. Sep 2019 — Sep 2023
GPA 3.0 / 4.

Experience

- **Front-end developer by Orange Coding Academey.**
 - Component-Based Architecture, Expertise in building modular and reusable components to ensure scalable and maintainable codebase.
 - Implementing state management solutions, such as Redux, for effective data flow in complex applications.
 - navigation and routing using React Router for creating seamless, single-page applications (SPAs).
- **Fullstack JavaScript web Development Bootcamp.**
 - building and styling web pages using HTML,CSS, and JavaScript, Bootstrap, Tailwind CSS Frameworks for creative and responsive design.
 - expertise in backend frameworks such as ExpressJs for NodeJs, Design and build RESTful APIs to communicate between frontend and backend.
 - Working with both relational databases MySQL and non relational databases NoSQL such as MongoDB.
