Full Stack Web Developer

Career Objective

Full-Stack Developer with a Bachelor's degree in Computer Science and extensive training from Orange Coding Academy. Passionate about programming and problem-solving, with hands-on experience in .NET technologies such as ASP.NET MVC, ASP.NET Core Web API, and Angular. Currently undergoing 900 hours of technical training and 100 hours of soft skills development, while actively performing peer reviews and taking on leadership roles like Scrum Master and Product Owner. Proven ability to excel in team settings, having completed over 10 projects and participated in numerous technical contests. Eager to contribute to an entry-level Web Developer role by applying my skills and enthusiasm to drive success and personal growth.

Technical Skills

Front-End: HTML5/CSS3, JavaScript, Bootstrap, Angular, TypeScript
Back-End: C#, ASP.NET MVC, ASP.NET Core Web API.
Database: SQL Server.
Operating Systems: Windows
Software Development Practices (SDLC): Scrum, Agile
Programming Concepts: Object-oriented programming.
Tools: VS code, Visual Studio, Figma, GitHub, Trello, Git (Version Control System).

Soft Skills

Fast and Self Learning Negotiation Skills Presentation Skills	Critical Thinking Problem-Solving Ability Creativity and Innovation Technical Documentation	Time Management Effective Communication Attention to Details Team Collaboration

Experience

Orange Coding Academy, Irbid / Jordan   **May 2024 - Present**
Full Stack Web Development Trainee
Work Experiences:

- Completed intensive training in Full Stack Development, gaining expertise in both front-end and back-end technologies.
- Developed and maintained web applications using HTML, CSS, JavaScript, C#, TypeScript, Angular, and ASP.NET MVC, ensuring robust, scalable, and maintainable solutions. Designed responsive user interfaces using Bootstrap and Angular.
- Built and integrated APIs using ASP.NET Core Web API to enhance functionality and support efficient data exchange within applications.
- Managed databases with SQL and SQL Server, performing complex queries and ensuring data integrity.

Sakhrah Secondary School for Boys, Ajloun / Jordan   **Jul 2022 – May 2024**
Computer Science Teacher
<u>**Work Experiences:**</u>

- Taught computer science, guiding students in foundational programming, web development, and database management.
- Designed and implemented curriculum-focused lessons to enhance student engagement and understanding of computer science concepts.
- Provided mentorship and additional academic support to students outside of class hours

Projects

- **Online Jordanian Election System**

  GitHub: [Online Jordanian Election System](#)
  A system designed to simplify the election process with features like candidacy applications, debates, secure voting, and real-time results.

- **HR Management System**
  GitHub: [HR Management System](#)
  A user-friendly HR platform with features for feedback, leave management, and profile editing.

- **Dynamic Online Feedback System**
  GitHub: [Feedback System](#)
  A feedback platform for courses with admin and student interfaces for feedback management.

- **Bus Reservation System**
  An online platform for booking and managing bus reservations. It allows users to search for available buses, reserve seats, and receive booking confirmations. Administrators can manage bus schedules, seat availability, and passenger information, providing a smooth and efficient reservation process for both passengers and operators.

Education

Orange Coding Academy, Irbid/Jordan   **May 2024 - Present**

Intensive course in Full Stack Web Development in collaboration with Simplon. co and Princess Sumaya University for Technology (PSUT).

Al-Balqa Applied University, Ajloun   **Oct 2018 - Feb 2022**
Bachelor's Degree in Computer Science

Courses and Certificates

- Completed the course HTML Development in Orange Coursat.   Mar / 2024

- Completed the course CSS Development in Orange Coursat   Mar / 2024

- Completed the course JavaScript Development in Orange Coursat.   Mar / 2024
