Full Stack Web Developer

CAREER OBJECTIVE

Full-Stack Web Developer with a Bachelor's degree in Computer Engineering and extensive training from Orange Coding Academy. Demonstrates a strong passion for programming and problem-solving, with hands-on experience in .NET technologies such as ASP.NET MVC, ASP.NET Core Web API, and Angular. Proven ability to excel in collaborative team settings, having completed over 10 diverse projects and participated in numerous technical contests. Eager to contribute to an entry-level IT role by applying my technical skills and enthusiasm to drive organizational success and continue personal growth.

Technical Skills

Front-End: JavaScript, Angular, HTML/CSS , Bootstrap, TypeScript
Back-End: C#, Python, C++, SQL , ASP.NET MVC, ASP.NET Core Web API
Database: SQL Server
Operating Systems: Windows
Software Development Practices (SDLC): Waterfall, Agile
Tools: Visual Studio, Visual Studio Code, SQL Server, Git, Trello, Figma, Canva
Technical Expertise: OOP, Version Control (Git), Documentation Writing

Soft Skills

Fast and Self Learning Negotiation Skills Presentation Skills	Critical Thinking Problem-Solving Ability Creativity and Innovation Technical Documentation	Time Management Effective Communication Attention to Details Team Collaboration

Experience

Orange Coding Academy, Irbid/Jordan
Full-Stack Development Trainee   **May 2024 - Present**
<u>Work Experiences:</u>

- Completed intensive training in full-stack web development, with a strong focus on back-end technologies.
- Developed and maintained web applications using HTML/CSS, JavaScript, C#, TypeScript, and Angular.
- Built and consumed APIs with ASP.NET Core Web API, and developed applications using ASP.NET MVC and Web Forms, enhancing functionality and user experience.
- Managed and queried databases using SQL and SQL Server, ensuring efficient data storage and retrieval.
- Implemented responsive designs and user interfaces using Bootstrap and Angular.

Projects

1) **Parliamentary Jordanian Election System (**[Github](#)**)**
   Description: Developed a comprehensive platform using ASP.NET MVC and C# for online voting, application management, and real-time election result processing. Implemented SQL Server for efficient data management and storage.
2) **Feedback System (**[Github](#)**)**
   Description: a dynamic feedback system leveraging ASP.NET WebForms and C# for user authentication, course management, and real-time result visualization.
3) **HR Managment System (**[Github](#)**)**
   Description: an HR management system using HTML, CSS, and JavaScript to streamline various HR processes with a focus on task management and secure user access.
4) **Mini E-commerce Website (**[Github](#)**)**
   Description: A simple e-commerce site built from scratch using ASP.NET MVC, C#, Bootstrap, HTML, CSS, JavaScript, and SQL Server. The website features essential e-commerce functionalities including user authentication, product browsing, cart management, and user profiles.

Education

- **Full Stack Web Development Bootcamp by Orange Coding Academy (May 2024 – Present)**
  Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

- **Jordan University of Science and Technology, Irbid/Jordan (2017-2023)**
  Bachelor's degree in Computer Engineering

Courses and Certificates

- ASP.NET MVC
- CCNA
- QA
