Front-End developer | Back-End developer | Full stack developer

CAREER OBJECTIVE

As a dedicated and highly skilled professional with a background in Robotics, Artificial Intelligence, and Engineering, I am passionate about leveraging my technical expertise and communication abilities to contribute to innovative projects and solutions. With a strong foundation in digital marketing, LinkedIn optimization, and professional development, I aim to continuously improve my skills while making meaningful contributions in the fields of technology and training. I am committed to fostering teamwork and excellence while remaining adaptable and capable of performing under pressure.

I have also undergone hands-on training at **Orange Coding Academy – Bootcamp Coding**, where I gained high-level practical skills in programming and problem-solving. This experience significantly enhanced my ability to apply theoretical knowledge to real-world scenarios, work collaboratively in team-based projects, and deliver efficient technical solutions.

Core Competencies

Software Development	Critical Thinking	Time Management
Fast learner	Project Management	Effective Communication
Problem-Solving Ability		Attention to Detail
Team Collaboration		

Technical Knowledge

Programming Languages: JavaScript, HTML/CSS, React JS, PHP, Laravel, Python, C++,
Database: SQL, MySQL.
Operating Systems: Windows.
Software Development Practices (SDLC): Scrum, Agile.
Other Tools: MS Office (Word, Excel, PowerPoint), Git (Version Control Systems)

Internship

Al-Raja, Amman/Jordan   **March 2024 – April 2024**
Work Experiences:

Al-Raja International Training Company for Mobile Application Programming Department(flutter)

Academic Projects

1)Portfolio Website:
Description: Created a responsive portfolio to showcase my web development skills using HTML, CSS, JavaScript, andPHP, featuring dynamic content updates and an intuitive user interface.

2) Online Quiz Website:
Description: Using HTML, CSS , JavaScript and Bootstrap , developed an interactive online quiz website! Users can take their pick from three different quizzes, all accessible from a single platform After completing a quiz, the website displays their score along with detailed results, highlighting both correct and incorrect answers.

3)Juice Corner E-commerce:
Description: Developed an e-commerce platform with product browsing, shopping cart, and checkout features. Integrated user authentication and admin tools for managing products and sales using PHP and MySQL.

4) School Kids Coding
Description: Developed an interactive website for a kids' coding school using React.js. The platform provides an engaging learning experience, allowing students to explore coding through interactive lessons and projects. Implemented a user-friendly interface with smooth navigation, responsive design, and dynamic content rendering.
Focused on scalability and performance to ensure a seamless experience for both students and instructors.

5) orca diving
Description: Developed a hotel booking platform featuring room browsing, reservation management, and secure payment processing. Built with Laravel, the system supports CRUD operations for rooms, bookings, and user/admin management, ensuring scalability and performance. The platform provides an intuitive interface for guests to explore accommodations and for administrators to efficiently manage bookings.

Education & Credentials

Applied Balqa University , Jordan   **2024**

   Robotics, Artificial Intelligence Engineering Diploma

Conferences and Training Attended:

- **Digital Identity LinkedIn Optimization and Digital Marketing Training**
  March 2024
- **Certification of completion for 36-hour course in Flutter**
- **Graduated from Orange Coding Academy – Coding Bootcamp**
  From December 2024 to May 2025

Personal Information

- **Nationality:** Jordanian
- **Date of Birth:** 8 June 2001
- **Marital Status:** Single
- **Languages**: Arabic and English
- **Driving License**: yes
