SADI ASHLAQ
FULL STACK DEVELOPER

PERSONAL SUMMARY

My passion in programming started when I watched a TV show talking about modern technologies and wondered how they are made. I figured out that behind every technical product there is a group of dedicated developers making it happen. This became my career, to always be looking for the opportunity to problem solving and develop creative solutions.

PROFESSIONAL EXPERIENCE

Internet Technologies Seniors (trainee)

- Network Technical Support.
- Build a network.
- Make network configration.

Coding Academy by Orange (trainee)

- Learned new technologies and build projects.
