**CAREER OBJECTIVE**

I am a certified Full Stack Web Developer with a strong focus on **backend development**, having graduated from Orange Coding Academy. My skill set includes HTML, CSS, Bootstrap, JavaScript, PHP, MySQL, Laravel, and database management. Through hands-on projects at the academy, I've developed strong problem-solving abilities and adaptability.

**PROJECTS**

### PetLover E-commerce Shop
Developed a full-stack e-commerce website tailored for pet lovers to buy and sell pet food and accessories. This project demonstrated my end-to-end web development skills, including front-end interactivity with JavaScript, a custom PHP MVC backend, and database integration using MySQL. It was my first full-stack project and served as a strong foundation for future development work.

**Technologies**: PHP (MVC), JavaScript, HTML, CSS, MySQL

### Heal Point Website
Built a healthcare appointment booking platform using Laravel. The system allows patients to book appointments anytime, enables doctors to manage their schedules, and includes a full-featured admin dashboard for site management. Focused on user experience, secure authentication, and efficient data handling through Laravel's robust framework.

**Technologies**: Laravel (PHP), JavaScript, HTML, CSS, MySQL

**TECHNICAL KNOWLEDGE**

### Programming Languages

- Frontend: HTML, CSS, Bootstrap, JavaScript
- Backend: PHP, Laravel
- Database: MySQL
- Other Tools: MS Office (Word , Excel , PowerPoint)

**CORE COMPETENCIES**

- Problem–Solving: Key for tackling complex challenges with a logical and creative approach.
- Fast Learner: Vital for staying competitive by quickly adapting to new technologies and trends.
- Teamwork: Crucial for effective collaboration with developers, designers, and stakeholders to meet goals.
- Communication Skills: Essential for clearly conveying technical concepts to both technical and non–technical audiences.

---

**EXPERIENCE**

**Full-Stack Web Development Trainee – Orange Coding Academy**
**January – May 2025**

- Completed a 5-month intensive training program in full-stack web development. Learned and applied technologies such as HTML, CSS, JavaScript, PHP, Laravel, React, APIs, and MySQL. Gained hands-on experience in collaborative team environments, agile workflows, and continuous learning.

**Business Panning Intern – Arab Bank (CIB Department)**
**May – July 2024**

- Gained practical experience in data analysis, business planning, and innovation within the bank's Innovation Hub. Contributed to strategic decision-making and performance optimization efforts across various departments, including Transaction Banking, Financial Institutions, and Product Development.

---

**EDUCATION & CERTIFICATES**

**2021-2025 Al-Balqa' Applied University**
MIS - Management Information System with a vary good estimate
