Skills

- HTML
- React
- Tailwind
- Communication Skills
- Figma
- UX/UI
- JavaScript
- Bootstrap
- Android Studio
- CSS
- WordPress

Projects

Book Library, *"Java Script-Html-Css"* 🔗
Developing a user-friendly book reading website with a welcoming homepage, user authentication, robust form validation, a detailed Book Catalog Page, and a User Profile Page for managing reading lists. Accessibility features are integrated, and data security is maintained through JSON server and Firebase integration.

Tourism In Jordan, *"React"* 🔗
I took the lead in developing a dynamic React web application with a primary focus on promoting tourism in Jordan. This application offers a user-friendly interface that highlights a curated list of the most popular tourist destinations in Jordan.

Online Auction, *"Android Application"*
"Online Auction" is an innovative Android app that transforms the buying and selling process. It offers a dynamic platform for online auctions, ensuring a secure and transparent e-commerce environment. The user-friendly interface allows users to bid, track auctions, and manage listings seamlessly, making it a go-to destination for the modern online marketplace.

Giftyfy, *"React"*
Developed a cutting-edge website for gift sales and personalized delivery using React, Tailwind CSS, and Redux. The platform offers a seamless and engaging user experience, allowing users to explore diverse gifts, customize delivery, and securely complete purchases. The site aims to provide a unique and innovative online gift shopping experience, ensuring convenience and security for users.
