SUMMARY

A full stack developer who skilled and experienced developer specializing in Laravel, PHP, and React. With a passion for creating efficient and dynamic web applications, I have a strong track record of delivering high-quality solutions.

EDUCATION

Al-Balqa Applied University   class of Sep 2022
Bachelors Civil Engineering

PROFESSIONAL EXPERIENCE

Full Stack Trainee   Feb 2023–PRESENT

At Orange Academy in Al-Balqa, Salt
A Full Stack Trainee at Orange Coding Academy, where I am gaining comprehensive training in both frontend and back-end technologies.
Some of my works:

- Proficient in Web Development Technologies: Demonstrated expertise in HTML, CSS, and JavaScript, utilizing these languages to create engaging and responsive user interfaces.
- Skilled in leveraging React and Bootstrap frameworks to elevate the functionality and aesthetics of web applications.
- Design and develop intuitive and user-friendly interfaces for online shopping platforms by using php.
- Implemented data validation and form handling using JavaScript and server-side technologies.
- Have expertise in designing and implementing a database schema that effectively stores information by working in Laravel.
- Team Coaching and Development by being a scrum master and product owner of a project many times.

SKILLS

- Laravel framework
- HTML, CSS and JavaScript
- Communication and teamwork skills
- React
- Time management
- Continuous learning

PROJECTS

A Rental Platform**:**

- A web aoolication similar to Airbnb, an online marketplace for booking rentals built in Laravel MVC.
- This website include user registration and authentication, property listing, search and filteration,booking and payment,user reviews and admin panel.

Ecommerce Website:

- An e-commerce web application using PHP and MYSQL to buy organic food
- This project has a user side where he/she can view product categories, add products to the cart and proceed for checkout while from the administration side, the admin can view sales, and users, add products and categories, and can edit, update and delete all the items mentioned previously. The user can also leave comments on each product if he/she wants. This project will be done within Groups.

Online Quiz Website:

- A responsive and dynamic quiz website that requires the user to register and sign in to answer quiz questions, compare the user answers with the correct answers previously saved on local storage by JavaScript and JSON.

VOLUNTARY

Ya'mur Team   2020–2022

- Led a team of students as a media leader, playing a vital role in supporting and assisting fellow students.
- Created and curated content summaries of various topics, ensuring clear and concise information for students to enhance their understanding
- Organized and facilitated activities that fostered community engagement and helped individuals in need.
