- **Software Development Practices (SDLC):** MVC, Agile

SOFT SKILLS

- **Problem-Solving**
- **Communication**
- **Critical Thinking**
- **Teamwork**
- **Adaptability**
- **Attention to Details**

EXPERIENCE

➤ **Full-Stack Web Development Trainee | Orange Coding Academy, Amman/Jordan**   01/2025 —Present

- **Front-end:** Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, and Bootstrap, ensuring a smooth user experience with clean UI/UX design principles.

- **Back-end:** Built and maintained web applications using PHP and Laravel, integrating APIs and ensuring data efficiency.

- **Database:** Designed and managed MySQL databases, writing optimized queries for better data retrieval and performance.

- **SEO:** Gained knowledge of SEO best practices to optimize web applications for better visibility and performance.

- **Project Work:** Followed a structured learning path, progressing step by step through projects to master different concepts before building a full-stack project from scratch.

- **Collaboration:** Engaged in team-based development, contributing to project discussions and implementing requirements in coordination with peers.

➤ **Field Training | FintchBath**   Sep 2024 — Dec 2024

I completed a comprehensive field training program in the back-end department, gained practical experience in building projects and experience in using APIs and completed my graduation project on it using Flutter for mobile applications.

PROJECTS

- **Bright-Future – Supporting Individuals with Down Syndrome**.
  Developed a platform to help individuals with Down syndrome engage with others by providing educational videos, entertainment locations, doctor consultations, and job opportunities. The project was built using Spring Boot, Java, Maven, and SQL Server, featuring a user filter to personalize the experience.

- **DiceWave – E-Commerce Platform for Games**
  Created a platform for selling board games, puzzles, and kids' games using HTML, CSS, JavaScript, Bootstrap, and an external API to fetch movie data. It was my first front-end project, offering valuable learning experiences from design to debugging.

- **Rezotech – E-Commerce for Laptop Components**
  Built an e-commerce site for laptop components and accessories, focusing on fast, secure, and user-friendly shopping. It was developed using HTML, CSS, JavaScript, PHP, MySQL, and MVC Architecture. The platform offers an AI-powered assistant for personalized recommendations.

- **Hackathon Achievement – 4th Place in Code for Good**
  Participated in the Code for Good hackathon and secured 4th place out of 25+ teams. The project, "Giving Hands - أيادي العطاء," connects users to charities across Jordan for seamless donations. Tools used: HTML, CSS, JavaScript, Bootstrap, and Local Storage for data handling.

- **Design Hive – Creative Platform for Designers**
  Created a platform for designers to showcase their work and interact using HTML, CSS, JavaScript, Laravel, and Ajax, with features like profiles, messaging, and a like/comment system.
