Software Development Practices (SDLC): Scrum, Agile
Other Tools: Git & GitHub, Postman, phpMyAdmin, MySQL, Visual Studio Code, Trello.

Internship

Future Applied Computer Technology (FACT), Amman, Jordan
Database Developer

Oct 2023 – Jan 2024

- Installed operating systems and deployed essential software on employee devices.
- Designed, managed, and optimized databases using SQL, enhancing data retrieval and performance.
- Configured and maintained application servers to support organizational needs and streamline workflows.

Orange Coding Academy, Al-Balqa, Jordan
Intern, Full-Stack Development

Dec 2024 – Present

- Assisted in the development and maintenance of web applications using HTML, CSS, JavaScript, PHP, Laravel, and React.js.
- Gained hands-on experience in building and optimizing full-stack applications, focusing on both front-end and back-end functionality.
- Worked with phpMyAdmin and MySQL to design, manage, and optimize database structures for improved performance.
- • Engaged in active learning through hands-on tasks and real-world projects.
- Tested and debugged applications using Postman for API validation and troubleshooting.
- Collaborated with a team of developers to implement responsive UI/UX designs and ensure seamless user experiences.

Academic Projects

- **E-Vote (Online Election System):**
  An online voting platform for secure and transparent elections, allowing users to register, vote, and view real-time results. Built with HTML, CSS, JavaScript, PHP, and MySQL. Graduation project.

- **Personal Portfolio:**
  A visually appealing website showcasing my work, built with Bootstrap for the navigation bar and pure HTML and CSS for the remaining sections.
  Technologies Used: HTML, CSS, Bootstrap.

- **Skill Assessment Platform:**
  An interactive, responsive website designed to assess students' skills across various curricula. It offers customized assessments to identify strengths and weaknesses, optimized for all devices.
  Technologies Used: HTML, CSS, JavaScript.

- **SUBAS E-Commerce Platform:**
  A comprehensive e-commerce platform for electronics shopping, featuring product browsing, search, filtering, reviews, and an admin dashboard for managing sales, users, and revenue. Built with PHP for a robust and user-friendly experience.
  Technologies Used: PHP, MySQL, HTML, CSS, JavaScript.

Education & Credentials

Al-Balqa Applied University, Jordan   **2024**

Bachelor's in Computer Engineering
