Profile

Back-End Developer with expertise in Laravel, PHP, and SQL, I am passionate about creating efficient and scalable web applications. With a strong foundation in critical thinking and problem-solving, I excel in analyzing complex issues and finding innovative solutions to optimize performance and enhance user experience.

Skills

- PHP
- SQL
- Laravel
- GET
- HTML
- CSS
- Java Script
- Bootstrap

Experience

Back-End trainee, *Coding Academy by Orange*   2023 Sep – 2023 Dec

- *Developed a solid understanding of SQL database management, including query optimization and database design.*
- *Acquired hands-on experience in back-end programming languages such as PHP and frameworks like Laravel.*
- *Managed version control and collaborative development using Git and GitHub, ensuring seamless teamwork and efficient code management.*

Projects

Quiz Website

Built responsive quiz website using HTML , CSS and JS , complete with registration/login, sequential multiple-choice format, pass/fail result pages, review feature, YouTube API integration. Ensured security, informative confirmations, and efficient assessment tool for candidates' knowledge and skills.

Ecommerce Website (PHP & MySql)

As a vital team member and Scrum Master, I led the development of a robust e-commerce platform. Using PHP API, I ensured secure user authentication, enabling personalized profiles, efficient product searches, and a smooth checkout process. The project boasted an attractive landing page, an admin dashboard for seamless management, and a reviews section for user engagement and feedback.

Education

Back-End Developer /Coding Academy by Orange   2023 Sep – 2023 Dec

Bachelor's Degree in Electrical Power Engineering,   2017 Sep – 2022 Sep
Al-Balqa' Applied University
