Full Stack Web Developer

CAREER OBJECTIVE

A motivated Full Stack Web Developer with a strong foundation in software development, problem-solving, and team collaboration. I have completed over 900 hours of intensive technical training and 100+ hours of soft skills development from Orange Coding Academy. I am proficient in C#, ASP.NET Web Forms, ASP.NET Core Web API, MVC, SQL, HTML, CSS, JavaScript, TypeScript, and Angular. I have successfully contributed to 10 diverse projects, specializing in building scalable and user-friendly web applications. I have experience working in Agile teams using the Scrum framework and have taken on leadership roles such as Product Owner. I hold a Bachelor's degree from Jordan University of Science and Technology. I am eager to apply my skills in full-stack development to contribute to innovative, real-world projects in a dynamic and growth-oriented team.

Technical Skills

Front-End Technologies: HTML, CSS, Bootstrap, JavaScript, TypeScript and Angular.
Back-End: C#, ASP.NET Web Forms, ASP.NET Core Web API and MVC.
Database: SQL, MySQL and SQL Server.
Software Development Practices (SDLC): Web developer and Product Owner.
Other Tools: Git, GitHub (Version Control Systems), VS Code, Visual Studio, Figma, Trello and MS Office (Word, Excel, PowerPoint).

Soft Skills

- Learning Agility
- Time Management
- Adaptability & Learning Agility
- Effective Communication
- Self-Learner

- Team Collaboration
- Problem-Solving Ability
- Critical Thinking
- Research Skills

Experience

Orange Coding Academy   **Dec 2025 - Present**
Full-Stack Web Development Trainee
<u>Work Experiences:</u>
- Completed comprehensive training in Full-Stack Web Development at Orange Coding Academy, focusing on technologies such as **ASP.NET Core MVC and API**, **JavaScript**, **HTML**, **CSS**, **TypeScript**, **C#,** and **SQL**.
- Contributed to 10 projects, with 5 completed independently and 5 as part of collaborative team efforts.
- Focused on building responsive, dynamic web applications with hands-on practice in both front-end and back-end development.
- Created UI/UX mockups and wireframes in Figma, focusing on a user-centered design to enhance the application's usability and user experience.
- Dedicated **100 hours** to enhancing soft skills, including time management, teamwork, problem-solving, and communication.
- Completed 6 months of Full-Stack Web Development training, during which I served as Product Owner for one project, leading the team to enhance productivity and achieve project goals.

Projects

1) E-Commerce Cosmetics Website [GitHub Link]
Description:

Developed a feature-rich e-commerce web application for selling cosmetics, tailored for beauty enthusiasts. Key features include user authentication, product categorization, shopping cart, voucher system, order processing, and personalized user profiles with saved preferences, addresses, and payment methods. Integrated product reviews and ratings to enhance user trust and engagement. Focused on creating a modern, responsive, and user-friendly design.

Technologies Used:
Frontend: HTML, CSS, Bootstrap, JavaScript, Angular
Backend: —
Version Control & Collaboration: Git/GitHub
Design & Project Management: Figma, Trello

2) HR Management System [GitHub Link]
Description:
Developed HR management system with dashboards for employees, managers, and HR. Features include attendance tracking, task management, leave requests, evaluations, department management, PDF generation, and secure password hashing for an efficient and user-friendly experience.

Technologies Used:
Frontend: HTML, CSS, Bootstrap, JavaScript
Backend: ASP.NET Core MVC, C#, SQL
Version Control & Collaboration: Git/GitHub
Design & Project Management: Figma, Trello

3) Library Management System [GitHub Link]
Description:
Developed a full-stack web application for a coffee house with a built-in library, allowing customers to borrow books, reserve private rooms, and submit feedback. The system also provides administrators with tools to manage books, room reservations, and customer feedback efficiently.

Technologies Used:
Frontend: HTML, CSS, Bootstrap, JavaScript
Backend: ASP.NET C# Web Forms
Version Control & Collaboration: Git/GitHub
Design & Project Management: Figma, Trello

4) Build Quiz Website [GitHub Link]
Description:
Developed a recruitment quiz platform aimed at assessing candidates' abilities and knowledge for various job roles. The site offers quizzes like IQ, English, and Technical Tests, each containing 10 multiple-choice questions.

Technologies Used:
Frontend: HTML, CSS, Bootstrap, JavaScript
Storage: Local Storage, Session Storage, JSON
Version Control & Collaboration: Git/GitHub
Design & Project Management: Figma, Trello

Education

Orange Coding Academy   **Dec 2025 - Present**
Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Jordan University of Science and Technology (JUST)   **Oct 2018 – Jul 2022**
Bachelor's in Applied Chemistry
Grade: 3.27 out of 4 (Very Good)
