Full Stack Web Developer

CAREER OBJECTIVE

Full-Stack Developer with a Bachelor's degree in Network Engineering and Security, equipped with a strong foundation in both front-end and back-end development and a strong emphasis on developing scalable, user-centric web applications. Over my journey at Orange Coding Academy, I completed 10 projects, gaining hands-on experience with HTML, CSS, JavaScript, TypeScript, MVC, MS SQL Server, Angular, Core API and practical knowledge of Figma for UI/UX design and GitHub for version control. As Product Owner for a team project, I enhanced my leadership and agile development skills. Passionate about problem-solving and creating innovative web solutions, I am eager to apply my technical expertise in a dynamic development environment.

Technical Skills

Frontend Technologies: HTML, CSS, Bootstrap, JavaScript, TypeScript, Angular
Backend Technologies: C# (OOP), ASP Web Form, ASP .Net Core MVC, ASP .NET Core API
Database: SQL, SQL Server
Operating Systems: Windows, Linux/Unix
Software Development Practices (SDLC): Scrum, Agile
Other Tools: Figma, VS Code, Visual Studio, GitHub

Soft Skills

- Time Management
- Problem-Solving Ability
- Effective Communication
- Attention to Detail
- Team Collaboration

Experience

Orange Coding Academy, Irbid- Jordan   **Dec 2024 – present**
Full-stack Web Development Trainee
Work Experiences:

- Developed responsive and interactive front-end web applications using HTML, CSS, JavaScript, TypeScript, ensuring a seamless user experience.
- Built and integrated back-end components using C#, ASP.NET Core MVC, and SQL Server, ensuring efficient data management and application functionality.
- Collaborated in an Agile environment across multiple projects to create scalable, high-performance applications.
- Gained practical experience with GitHub for version control, actively participating in debugging, optimization, and troubleshooting tasks.

Projects

1) **HR Management System ([GitHub Link](#))**
   Description: The HR Management System is designed to streamline employee, manager, and HR operations. The system enables attendance tracking, task management, leave requests, and performance evaluations with role-based access. Built using HTML, CSS, Bootstrap, JavaScript, C#, SQL Server, and ASP.NET Core MVC.

2) **e-commerce web application ([GitHub   Link](#))**
   Description: Developed a feature-rich e-commerce web application for selling cosmetics, operations. focusing on user experience and modern design using Angular, TypeScript, HTML, CSS, Bootstrap. The platform includes user authentication, product categorization   shopping cart, voucher application, order processing, and a personalized user profile system with saved preferences, addresses, payment methods, and order history. Integrated product reviews and ratings to enhance customer trust.

3) **Library Management System ([GitHub Link](#))**
   Description: A Library Management System designed to streamline university library operations for students and library owners. It allows students to search and borrow books, reserve meeting rooms, submit feedback, and manage profiles**,** while library owners can manage books, reservations, and feedback**.** Built with HTML, CSS, Bootstrap, JavaScript, C#, SQL Server, and ASP.NET Core MVC.

4) **Quiz Website ([GitHub Link](#))**
   Description: A quiz website for candidate assessments, featuring IQ, English, and technical tests with real-time validation and result tracking. Users must register and log in to take tests, view results, and track performance. Built with HTML, CSS, Bootstrap, and JavaScript.

Education

Full-Stack web Development Bootcamp – Orange Coding Academy
Dec 2024 – present
Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Network Engineering and Security – Jordan University of Science and Technology
Oct/2019 – Nov/2023
