Full Stack Web Developer

CAREER OBJECTIVE

A passionate and ambitious software developer with strong proficiency in the MERN stack, eager to contribute to innovative tech projects within rapidly growing technology ecosystem. I received intensive hands-on training at Orange Coding Academy, where I participated in real-world projects that enhanced both my technical and leadership skills within collaborative team environments. I have strong proficiency in JavaScript, React.js, and Node.js, along with practical experience in data mining and knowledge management, and a solid understanding of software development standards and best practices.

I am a fast learner, highly motivated to acquire any new skills required by the job, and always ready to keep up with the latest technological advancements. With an analytical mindset and strong problem-solving abilities, I also bring excellent communication and teamwork skills. I am seeking an opportunity in a professional work environment where I can deliver real value through my skills and experience. I always welcome the chance to discuss how I can be a valuable addition to your team.

Technical Skills

Front-End Development: HTML, CSS (Tailwind CSS, Bootstrap), JavaScript, React.js, Next.js, Redux, Figma

Back-End Development: Node.js, Express.js

Databases: MongoDB, PostgreSQL, MySQL, SQL, Firebase

Tools & Platforms: Git (Version Control), Postman, MS Office (Word, Excel, PowerPoint)

Content Management Systems (CMS): Odoo

Soft Skills

Problem Solving	Continuous Learning	Research Skills
Teamwork & Collaboration	Receiving Feedback	Negotiation & Conflict Resolution
Communication Skills	Attention to Detail	Stress Management
Time Management	Self-Management	Remote Work Skills
Adaptability		

Experience

Dar Al-Husam for Youth Work   **May 2025 - Jun 2025**
Full Stack Web Development Intern
<u>Work Experiences:</u>

- Worked as a team to design and develop a responsive website for the association using the MERN stack.
- Participated in planning sessions, requirement analysis, and feature implementation aligned with the association's needs.
- Created user-friendly interfaces using React.js, styled with Tailwind CSS.
- Implemented backend functionality using Node.js and Express.js to manage donation data and user interactions.
- Used Git for version control and effective team collaboration throughout the project lifecycle.
- Ensured the website was mobile-friendly, accessible, and accurately reflected the association's mission and goals.

Orange Coding Academy   **Dec 2024 - May 2025**
Full Stack Web Development Trainee
<u>Work Experiences:</u>

- Completed an intensive full-stack web development course in partnership with Simplon.co and Princess Sumaya University for Technology (PSUT).
- Gained hands-on experience with the MERN stack (MongoDB, Express.js, React.js, Node.js) through practical projects and coding tasks.
- Developed and deployed full-stack applications, enhancing skills in both frontend and backend development.
- Participated in collaborative projects, applying Agile methodologies to manage and deliver high-quality solutions.

Projects

1) Global Crime News Platform ([GitHub Link](#)**)**
Description: This project is a comprehensive news website dedicated to covering crime-related stories with accuracy and depth. Our platform provides the latest crime news, investigative reports, and community safety updates.

2)Flexora Platform ([GitHub Link](#)**)**
Description: This Office Rental Web Application allows users to browse, explore, and rent office spaces with ease. The platform provides a seamless experience for renters and landlords, featuring virtual tours, secure booking, and property management functionalities.

3) Jood – Revolutionizing Charity with Technology ([GitHub Link](#)**)**
Description: An innovative platform that seamlessly connects donors with those in need, ensuring secure and transparent donations while empowering individuals and organizations to create real social impact. Built using Node.js, Express, PostgreSQL, and Sequelize for a robust and scalable backend.

Education

Orange Coding Academy   **Dec 2024 – Jun 2025**
   Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).
