- Project Management Certificate (PMP) :

Project management allows for thorough planning and organization of project activities, defining objectives, determining tasks, allocating resources, and creating realistic schedules.

PROJECTS

Examination site:

- The project is a user-friendly website that offers online exams, built using CSS, HTML, and JavaScript, with data storage handled through the browser's local storage.

E-commerce website:

- The project is a website built using HTML, CSS, JavaScript, and PHP. Its main objective is to display products for sale, with data stored in PHPMyAdmin using the MySQL technology.

Rental Office:

- "Office Nest Rental" is a user-friendly website that facilitates office rental, providing convenient search and filter features for easy booking. It offers landlords a dedicated dashboard to market and showcase their available offices. The website is constructed using HTML, CSS, JavaScript, MySQL, and Laravel framework.
