SOFT SKILLS

- Critical Thinking
- Attention to Detail
- Teamwork
- Adaptability

EDUCATION

Bac helor's Degree in Software Engineering | Jadara University   Oct 2020   Jun 2024

Graduation Project: University E-Library Web Application :
A platform that enables students to search, view, and manage
academic books and resources efficiently.

EXPERIENCE

Full-Stack Web Development Bootcamp

Orange Coding Academy – Amman, Jordan

Jan 2025

- Developed responsive web interfaces using HTML, CSS, JavaScript, Bootstrap, Semantic UI, and React following clean UI/UX standards.
- Built full-stack applications using PHP, Laravel, and MySQL, and integrated RESTful APIs to ensure smooth backend communication.
- Wrote optimized SQL queries to improve performance and data handling.
- Collaborated with Agile teams using Scrum, contributing to 8+ real-world projects with complete frontend-backend integration.
- Completed 100+ hours of soft skills training, including teamwork, communication, leadership, and presentation.

Present

Full-Stack Web Development Training

Thaluf Al Emarat Technical Solutions

May 2023

- Developed responsive web interfaces using HTML, CSS, and JavaScript, with a strong focus on user experience and accessibility.
- Built cross-device compatible layouts using Bootstrap and Tailwind CSS, ensuring modern and mobile-first design.
- Translated high-fidelity UI/UX designs from Figma and Adobe XD into fully functional, interactive web pages.

Jan 2024

PROJECTS

Goalify – Football Field Booking Web App

Built a full-stack web application using Laravel, React, Tailwind CSS, and Inertia.js to allow users to check field availability and book time slots in real-time.

Lifeats – Meal Planning & Subscription Platform

Developed a subscription-based nutrition platform using Laravel, MySQL, and JavaScript, featuring dynamic meal schedules and RESTful API integration.

Green Roots – Plant Services Platform

Designed and built a responsive web platform using Laravel and MySQL, offering services such as home plant care, agricultural guidance, and periodic scheduling.

Coffee & Tea E-Commerce Store

Implemented an online store using PHP and MySQL, including product browsing, shopping cart, cash-on-delivery, and an admin panel for managing orders.

E-Commerce Clothing Store

Created a full e-commerce platform using PHP and MySQL to manage products, discounts, and orders in a scalable system.

Movies Explorer Hub

Developed an interactive movie website using Semantic UI and JavaScript, featuring search, filtering, and detailed movie information display.

Portfolio Website

Designed and built a responsive personal portfolio using HTML, CSS, and JavaScript to showcase skills, projects, and contact information.

YouTube UI Clone

Implemented a front-end clone of the YouTube interface using HTML, CSS, and JavaScript, focusing on layout accuracy and user interface engineering.
