Internship

Orange Coding Academy   **May 2024 - NOV 2024**
Trainee | Full Stack Development

Work Experiences:

• Designed a personal portfolio to showcase skills and projects acquired throughout the cohort.
• Supported the deployment of new technology solutions, gaining hands-on experience with enterprise IT environments.
• Was an integral part in the design and implementation of database management solutions, enhancing data integrity and performance.

Academic Projects

(1) Building an Online Quiz Website
Description: we developed an interactive online quiz website! Users can take their pick from three different quizzes, all accessible from a single platform. After completing a quiz, the website displays their score along with detailed results, highlighting both correct and incorrect answers.
To bring our website to life, we used a variety of technologies(Html,css,javascript)

(2) Flosun project :is a dynamic website developed using PHP, designed to provide users with an interactive experience through efficient backend processing and responsive design.

(3)DreamRent Car Rental
Description: Built a car rental website with vehicle browsing, booking, and payment features. Used Laravel for CRUD operations and user/admin management, focusing on scalability and performance.
