Soft Skill

- Communication
- Problem-Solving
- Adaptability
- Creativity
- Time Management:

Education Background

- University Of Jordan
  Bachelor in Computer Information Systems
  2021 - present

Language

Arabic - Mother Language

English - C1

Sindhi - Native Speaker

About Me

I'm an eager Computer Information Systems (CIS) student with a passion for web development and AI. Mastering core principles and applying them through real-world projects excites me. My goal is to create captivating platforms using cutting-edge technology.

As a motivated Full Stack Web Developer, I have a proven track record in crafting responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, React, SQL, PHP, and Laravel, I excel at turning design concepts into seamless digital experiences. Thriving in collaborative environments, I'm always on the lookout for growth opportunities. My dedication lies in delivering high-quality web applications that exceed user expectations.

Professional Experience

June 2023 - October
Orange Coding Academy | Aqaba Cohort
Trainee As Full Stack Web Developer

At Orange Coding Academy, I excelled in a 5-month web development bootcamp, gaining hands-on expertise in a wide range of technologies. Additionally, I performed effectively as both a Scrum Master and Product Owner, implementing agile methodologies and ensuring timely project delivery

- ## Projects

  ### 1 - Quiz App - Using Html , CSS and Javascript

  Achieved development of an interactive quiz website with responsive design and dynamic features. Implemented a secure registration and login system for users to participate in quizzes. Incorporated functionality to compare user-provided answers with correct responses stored in local storage, enhancing the user experience.

  ### 2 - Services Greenfield Project - Using LARAVEL " As Product Owner "

  Utilized Laravel, Bootstrap, HTML, CSS, and MySQL to build a comprehensive web platform enabling users to book services and discover volunteer opportunities. Implemented robust user authentication, an intuitive admin dashboard, and maintained a cohesive visual identity throughout the project.

  ### 3 - E-Commerce Website - Using PHP And React" As Scrum Master "

  Engineered a robust e-commerce web application by leveraging React for the frontend, PHP for server-side logic, and MYSQL for database management. The application seamlessly integrates product listings, cart functionality, and secure checkout for an enhanced user shopping experience.
