orange coding academy, *Back-End developer*   Sep 2023 – Dec 2023 | al-salt, Jordan

---

💼 PROFESSIONAL EXPERIENCE

orange coding academy, *back-end developer*   Sep 2023 – Dec 2023 | al-salt, Jordan
- Proficient in PHP and Laravel for robust back-end development.
- Optimized SQL and MySQL databases for efficient data management.
- Led API development to enhance system functionality and user experience.
- Ensured clean and organized code following coding standards.
- Collaborative problem-solving and agile leadership in cross-functional environments.
- Continuous learning: Stayed updated with industry trends and emerging technologies.

📁 PROJECTS

E-commerce Shop for Footwear ⬈
Developed an e-commerce platform with PHP, MySQL, and JavaScript, enabling users to search products by name and price, add items to the cart, and submit product reviews through individual listing comments. Administrators possess the ability to manage products, categories, and user profiles. Implemented diverse APIs to seamlessly connect backend and frontend functionalities.

Quizzes Website ⬈
Created a responsive quizzes website employing HTML, CSS, and JavaScript, seamlessly connected to a JSON file. Utilized session and local storage for efficient data management, ensuring a seamless user experience.

🧠 SKILLS

• PHP	• LARAVEL	• Postman	• HTML/CSS/JS
