PRODUCTION ENGINEER
3/2022 to 7/2022

BACKALDRIN / Amman-Jordan

INDUSTRIAL ENGINEER INTERNSHIP
10/2021 to 1/2022

FOSROC / Amman-Jordan

Projects

- ### **Quizify Web Application**

Developed a web application utilizing HTML, CSS, and JavaScript. As part of this project, I focused on designing an intuitive user interface that enhances the user experience during interactive quizzes. Additionally, I implemented the necessary functionality to accurately display quiz results to users, ensuring a seamless and informative experience.

- ### **NexGen-Tech E-commerce Website**

Created a responsive e-commerce website for selling technology products, utilizing a combination of PHP, JavaScript, Bootstrap, CSS, HTML, and MySQL. I developed product listing pages that showcased the available items, implemented shopping cart functionality for a seamless shopping experience, and integrated secure payment methods to ensure a safe transaction process.

- ### **SONA Farm Rental Platform**

Built a farm rental platform utilizing Laravel, JavaScript, Bootstrap, CSS, HTML, and MySQL. The platform Implemented two user types: farm owners and renters. I designed an admin dashboard for efficient management of properties and user profiles. Additionally, I created renter profiles with a dashboard that enabled users to control property bookings and make secure payments.
