Full stack developer

CAREER OBJECTIVE

I am passionate about the programming world and strive to employ my skills in software development and problem solving to build innovative technical solutions. I have experience in Laravel, PHP, JavaScript, and aspire to work in a dynamic environment that helps me develop my skills and contribute to creating effective and scalable projects. My goal is to write a clean and effective code and participate in building apps that meet users'needsefficiently.

Core Competencies

Software Development	Critical Thinking	Time Management
Performance Review	Project Management	Problem-Solving Ability
	Creativity and Innovation	Effective Communication
		Team Collaboration

Technical Knowledge

Programming Languages: Laravel, Php, React, JavaScript, HTML/CSS
Database: SQL, MySQL, SQL Server
Operating Systems: Windows
Software Development Practices (SDLC): Scrum, Agile

Internship

Orange Coding Academy,Aqaba
May 2025 – Nov 2025
Intern, Full Stack Web Developer

Work Experiences:

- Developed and maintained full-stack web applications using PHP, MySQL, Laravel, and JavaScript, improving both front- end and back-end and back-end functionality.
- Collaborated on a team project to build an e-commerce platform, enhancing user experience and backend processes through innovative solutions and efficient coding practices.

- Implemented database-driven features, optimizing queries and ensuring secure data handling across various systems.
- Worked with technologies such as JSON, and APIs.

Academic Projects

1) Coding School for Children - Smart School
An educational school specializing in teaching programming to children in an interactive and enjoyable manner, which aims to develop logical thinking and problem solving skills through modern curricula based on experience and practicality.

2) Ecommerce Website - furniture_store
An online store specializing in selling luxury furniture, combines elegance and high quality to meet the needs of customers looking for good taste. The site provides a variety of classic and modern designs, with easy options to choose sizes and colors.

3) orca diving
Description: Developed a hotel booking platform featuring room browsing, reservation management, and secure payment
processing. Built with Laravel, the system supports CRUD operations for rooms, bookings, and user/admin management,
ensuring scalability and performance. The platform provides an intuitive interface for guests to explore accommodations
and for administrators to efficiently manage bookings.

4)Portfolio Website:

Description: Created a responsive portfolio to showcase my web development skills using HTML, CSS, JavaScript, featuring dynamic content updates and an intuitive user interface.
