Software Engineer | full stack developer | Software Engineer |Backend Developer |Frontend Developer

CAREER OBJECTIVE

A second year Software Engineer student at aqaba University of technology. Equipped with foundational skills in software development, and knowledge management. Proven ability to apply technical skills in C++, and Python in practical, real-world situations, demonstrated through internships and academic projects. Adept at problem-solving and analytical thinking, with a solid grasp of standardizing policies and procedures. Brings strong interpersonal and communication skills, fostered through successful team collaborations and leadership roles in various projects. Looking to leverage extensive academic training and internship experience in dynamic entry-level IT positions.

Core Competencies

Front-End Development	Critical Thinking	Time Management
Back-End Development	Project Management	Effective Communication
Soft Skills	Creativity and Innovation	Attention to Detail
Testing & Debugging	Problem-Solving Ability	Team Collaboration

Technical Knowledge

Programming Languages: Python,php, C++, JavaScript, HTML/CSS, bootstrap,React
Database: SQL, MySQL, SQL Server
Operating Systems: Windows
Software Development Practices (SDLC): Scrum, Agile
Other Tools: MS Office (Word, Excel, PowerPoint), Git (Version Control Systems)

Academic Projects

1) HiveNet
Description: An Event Management System that allows users to view and register for events, while administrators can create, manage, and analyze events. The system includes two dashboards: one for event participants (users) and one for event organizers (admins).

2) TaskFlow
Description: An tasks Management System that allows to track, and manage tasks efficiently. It provides a structured way to manage workflows, prioritize work, set deadlines, and ensure that tasks are completed on time. Task management systems are essential for both personal productivity and collaborative projects, enabling users to keep track of what needs to be done, who is responsible, and when it needs to be completed.
