Learning liferay

- ORANGE CODING ACADEMY TRAINING SYSTEM

02/2023 - 08/2023

Full stack web developer:

- **Hojozaty**: Most restaurants do not have a family hall or do not contain a enough tables, and most individuals do not have knowledge of restaurants especially when moving from place to place. Therefore we came up with the idea of Hojozaty, where you find many restaurants on the site and you can view the restaurant's information or make a reservation in it.
- **وشاح الأمل** : We came up with the idea of وشاح الأمل to facilitate the process of donating clothes to those in need, as it facilitates the process of communicating with and donating to charitable organizations.
- **Naqilati**: A website that displays details about universities in Jordan, in addition to the parking locations for each university's buses and the departure time of each bus.

EDUCATION

- ORANGE CODING ACADEMY TRAINING SYSTEM

02/2023 - 08/2023

Full stack web development
