- Gained hands-on experience in API integration, testing, and debugging, ensuring smooth functionality and performance across applications.
- Developed key soft skills, including (Effective Communication, Team Collaboration, Problem Solving, Time Management, Active Listening).
-

Academic Projects

1) Personal Portfolio

Description: "**My Personal Portfolio**" is a sleek and engaging website designed to showcase my skills and projects. I utilized Bootstrap for a dynamic navigation bar, while the rest of the site was crafted using pure HTML and CSS**,** ensuring a clean and visually appealing layout that highlights my expertise.

2) QuizSite – Online Quiz Platform

Description: Developed an interactive online quiz platform where users can select from three different quizzes and receive instant feedback on their performance. The system displays a detailed breakdown of correct and incorrect answers. The project was built using HTML, CSS, and Bootstrap for a responsive design, while JavaScript powered the interactive features, form validation, and quiz logic.

3) SUBAS – E-Commerce Website

Description: Developed SUBAS, an electronics e-commerce platform for smartphones, laptops, and smartwatches. Features include dynamic product listings, advanced search, secure checkout, and responsive UI. Built with PHP, MySQL, JavaScript, Bootstrap, HTML, and CSS**,** showcasing expertise **in** full-stack development and database management**.**

4) Car Rental Website

Description: Developed a user-friendly car rental platform that streamlines bookings, manages vehicle availability in real time, and ensures secure reservations with seamless payments. Built with Laravel, MySQL, JavaScript, Bootstrap, HTML, and CSS**,** this project showcases expertise in backend integration, database management, and responsive UI design**.**

5) APEX – Contract Management System

Description: Developed **APEX**, a single-page Contract Management System for a remote IT startup, optimizing contract handling, employee management, and authentication. Features include profile management, an employee directory, and admin-controlled contract approvals with expiration-based color coding. Built with Firebase, Laravel, JavaScript, Bootstrap, HTML, and CSS, ensuring secure CRUD operations, real-time data management, and a responsive UI.

Education & Credentials

Al-Balqa Applied University, Jordan   **2020 – 2024**
  Bachelor's in Software Engineering
  Grade: 3.16 out of 4.0
