- GITHUB
- MYSQL

SOFT SKILLS

- Teamwork
- Communication Skills
- Scrum Team
- Presentation Skills
- Work under pressure

ABOUT ME

I am a web developer who changed my study and work specialization from accounting to programming due to my great love for the code, and the freedom that the code gives me, which enables me to come up with amazing solutions during the construction of projects. As I always says, there is nothing that you cannot do with the code.

EXPERIENCE

Orange Coding Academy   2022 - 2023

It is worth to mention that during my learning period at the academy, I built more than ten projects with all the languages mentioned in my skills section
