Profile

Full Stack Developer with a robust background in creating user-focused web applications, excelling in both front-end and back-end technologies. Acquired substantial hands-on experience through completing 4 projects at Orange Coding Academy. Proficient in HTML, CSS, JavaScript, PHP, and MySQL, with a strong passion for writing clean, efficient code and delivering innovative solutions. Eager to leverage my technical skills within a dynamic and forward-thinking web development team

Education

- Full-Stack Development Bootcamp | Orange Coding Academy | Amman-Jordan **Jan 2025 – Present**

Full Stack Web Development Scholarship offered by Orange Coding Academy in cooperation with Simplon

- Bachelor in Cyber Security **Jan 2024**
Irbid National University

Professional Experience

Full-Stack Web Development Trainee | Orange Coding Academy | Amman-Jordan **Jan 2025 – Present**

- Front-end: Developed responsive and interactive user interfaces using HTML, CSS, JavaScript and React.js enhancing the user experience with clean UI/UX principles.
- Back-end Developed and consumed RESTful APIs using Laravel and PHP. Created scalable backend services with authentication, data validation, and API resource management for seamless front-end integration.
- Database: Managed and optimized SQL Server databases. Created and executed queries for efficient data retrieval, and ensured database performance.
- Project Work: Delivered 4 full-stack web projects, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications.
- Collaboration: Worked closely with teams to implement project requirements and ensure the seamless integration of front-end and back-end systems.

Certifications

- Cisco Certified Network Associate (CCNA) **Oct 2024**

Skills

- Backend: PHP, Laravel, RESTful APIs
- Tools: Visual Studio code, GitHub, Figma, Trello
- Database: MySQL Server

Projects

- **Life-Eats (GitHub):** Developed a healthy food web application using the Laravel framework. Designed a responsive user interface and built a RESTful API for handling user authentication, meal categories, and orders. Integrated an admin panel for managing meals using Laravel's MVC architecture.

- **Flower Website (GitHub):** Developed a dynamic flower shop website using HTML, CSS, JavaScript, PHP, and MySQL. Designed a responsive user interface for browsing various floral arrangements through a dedicated products page. Integrated interactive features such as real-time form validation and a shopping cart. Built an order form to capture customer details and preferences, with PHP handling backend logic and MySQL managing data storage for orders and product inventory.

- **E-commerce Clothing Store(GitHub):** Developed an online store for selling clothing items, utilizing HTML, CSS, and JavaScript. Implemented local storage to manage shopping cart functionality and user sessions.HR

- **Portfolio (GitHub):** Developed a comprehensive portfolio website showcasing various projects and skills, utilizing HTML and CSS for a clean and responsive design.
