KARIM KHALED

FULL STACK DEVELOPER

[in] Karim Khaled | [🐱]Karim-a-khaled | +962795771301 | karim.a.s.khaled@gmail.com

PROFILE SUMMARY

I'm a Full Stack Developer with expertise in HTML, CSS, and React. I excel in creating innovative and user-friendly web and mobile applications, with skills in both front-end and back-end development. I stay up-to-date with emerging technologies and trends, and value producing high-quality work to meet client and user needs.

WORK EXPERIENCE

Full Stack Developer(trainee)   Feb/2023 - Present
Orange Coding Academy

- Proficient in designing, developing, and deploying web applications adhering to industry standards and best practices, employing a diverse range of technologies such as React, Node.js, HTML, CSS, MongoDB.

- Implemented new features and functionalities using agile development methodologies, ensuring that the projects were delivered on schedule and within timeframe.

- Conducted thorough testing and quality assurance, identifying and resolving issues to ensure that the applications were bug-free and optimized for performance.

- Demonstrated strong problem-solving and analytical skills, regularly presenting innovative solutions to complex technical challenges.

Software Test Engineer   Nov/2021 - Feb/2022
Emerging Management Services

- Collaborated with cross-functional teams to develop comprehensive test plans and test cases, ensuring that all functional requirements were tested and met

- Conducted manual testing, identifying and reporting software defects and working with developers to ensure timely resolution.

PROJECTS

News Aggregator

- Utilizing React and json server, I crafted news aggregator website that effortlessly keeps users informed with real-time updates from a wide range of news sources.

Chat-Bot

- My website chat bot, built using React.js, Node.js, and Express, utilizes the powerful GPT-3.5-turbo API from OpenAI to provide intelligent and engaging conversation experiences.

Pro-Shop

- From the ground up, we construct an eCommerce shop using the MERN stack and Redux Toolkit, covering the entire process of server setup, data modeling, MongoDB database creation, data seeding, UI development, Redux state management, and JWT authentication.

TECHNICAL SKILL

- HTML
- CSS
- Javascript
- Bootstrap
- ReactJs
- NodeJs
- ExpressJs
- MongoDB
- Software Testing

PROFESSIONAL SKILL

- Problem Solving
- Leadership
- Communication Skills
- Continuous Learning
- Analytical Thinking
- Empathy

EDUCATION

Computer Science
MiddleEast University

2016 – 2021
