BASEL QARQA

FULL STACK DEVELPER WEB & MOBILE

✉ basel.qarqa@gmail.com | 📞 0787159816 | in basel-qarqa | ⌗ baselmq

Profile Summary

Full stack developer proficient in HTML, CSS, JavaScript, Bootstrap, React, Node.js, and Express.js. Detail-oriented and meticulous, I consistently deliver high-quality designs with a keen eye for precision. Known for timely project completion and strong attention to detail, I am committed to exceeding expectations and ensuring client satisfaction.

Education

Orange Coding Academy   *2/2023 - present*

Full Stack Developer web & Mobile

Al Al-Bayt University   *2017 - 2021*

Computer Information Systems, very good

Work Experience

Full-Stack Web Developer Trainee   *2/2023 - present*

Orange Coding Academy

- Gained a deep knowledge of modern technologies such as JavaScript (React), Node.js, and MongoDB through intensive learning and practical application.
- Enhanced my soft and digital skills by dedicating over 100 hours to web development training.
- Completed 10 diverse projects using various technologies, both individually and in teams.
- Showed my leadership abilities and project management skills by taking on the roles of Scrum Master and Product Owner in several occasions.

Projects

Chatbot - ChatGPT

- an AI-powered chatbot using OpenAI's ChatGPT, Node.js and React
- Handled API requests, conversation flow, and error feedback on the backend.
- Created a user-friendly interface with React components on the frontend.

DevBridge - Online Registration

- Developed a user-friendly website for online registration using HTML, CSS, and Bootstrap.
- Implemented registration/login functionality, a detailed form, English and technical tests, and a report page.
- Used JavaScript validation techniques to ensure the accuracy of user inputs in the form.
- Leveraged local storage to securely store and retrieve user data across multiple sessions.
- Collaborated with three other group members using Trello board to distribute and track tasks.

Al-Rayyan (Ramadan Theme,1st place Hackathon Amman)

- Our project achieved first place in the Amman Coding Academy Ramadan hackathon.
- A site with a Ramadan theme that was programmed by HTML and CSS compatible with all screen sizes. Its general idea is to provide excess food and not waste it through specialized teams from our site to collect this food.

You can see all projects here: portfolio

Technical Skill
