Full Stack Web Developer

CAREER OBJECTIVE

As a Full Stack Web Developer, I bring a strong blend of technical expertise and problem-solving skills that I am currently developing through an intensive training program at **Orange Coding Academy**, where I will complete over **900 hours of technical training** and **100 hours of soft skills development**. I am proficient in a wide range of web development technologies, including **HTML, CSS, Bootstrap, JavaScript, C#, MVC, SQL, and TypeScript**, which allows me to efficiently handle both front-end and back-end development. **Throughout my educational and training journey, I have completed over seven projects, taking on key leadership roles such as Scrum Master and Product Owner.** With a solid foundation in **analytical skills and creativity**, as well as a proven ability to **learn quickly and adapt to new technologies**, **I am eager to apply my skills to drive innovation, enhance efficiency, and deliver impactful solutions in the technology industry.**

Technical Skills

Front-End: HTML, CSS, JavaScript, Typescript, Angular, Bootstrap.
Back-End: C# (OOP), Asp.Net Web Forms, ASP.NET Core MVC, Asp.Net Core API.
Database: SQL Server.
Software Development Practices (SDLC): Scrum, Agile
Other Tools: Visual Code, Visual Studio Code, Figma, Trello, Git (Version Control System), GitHub.

Soft Skills

Software Development	Project Management	Time Management
Critical Thinking	Creativity and Innovation	Effective Communication
Problem-Solving Ability	Team Collaboration	Attention to Detail

Experience

Orange Coding Academy, Irbid/Jordan   **Dec 2024 - Present   Full Stack Web Development Trainee**

<u>Work Experiences:</u>

• Developed and maintained responsive web applications using HTML, CSS, Bootstrap, JavaScript, TypeScript and Angular, improving user interface and overall user experience.

• Assisted in building and optimizing back-end services using ASP.NET MVC Core, ASP.NET Core API, and SQL, ensuring the creation of robust and scalable solutions.

• Collaborated closely with cross-functional teams to deliver high-quality code, fostering teamwork and enhancing project management skills.

• Contributed to the design and implementation of database structures, improving data retrieval efficiency, security, and integrity.

• Implemented secure user authentication and authorization mechanisms for web applications, ensuring data security and privacy.

Projects

1) ByteCraft ([GitHub Link](#))
Description: A system developed for the web using **ASP.NET MVC and C#**, enabling the management of employee and manager records, tracking working hours, processing leave requests, and assigning tasks. The system allows HR to efficiently monitor overall operations.

2) YourSpot ([GitHub Link](#))
Description: A system developed using **ASP.NET MVC** and **C#** to organize bookings for weddings, birthdays, and special events. It also facilitates the search and reservation of rooms or halls for meetings and seminars. The system helps users find the best prices and locations for their events, saving time and effort.

3) Task Management System ([GitHub Link](#))
Description: Personal Task Management System is an MVC-based web application that helps individual users organize and track their daily tasks. Users can create, update, and manage tasks, view progress through dynamic dashboards, and stay productive with real-time status updates and summaries.

4) Photography Store ([GitHub Link](#))
Description: Photography Store is a group-based Angular project featuring a user-friendly e-commerce platform where users can browse product categories, view product details, add items to their cart, leave comments, and complete checkout with credit card or Orange Money. Users can manage their profiles, view past orders, apply discount vouchers, and search with filters or voice. Admins have a dashboard to manage products, categories, users, and vouchers. The site includes multi-language support and allows sharing products on Facebook.

Education

Orange Coding Academy, Irbid/Jordan   **Dec 2024 - Present**
Full Stack Web Development Bootcamp
Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Yarmouk University, Jordan   **Sep 2015 –Jan 2021**
Bachelor's in Physical Education

Courses
- C++
- Data Structures
