OBJECTIVE

As a junior data scientist, I am eager to apply my strong foundation in mathematics and data analysis to contribute to a team focused on developing innovative solutions for complex business problems. I am passionate about using my skills in machine learning and statistical modeling to drive business growth, and am committed to continuously improving my abilities through ongoing learning and development. I am dedicated to staying up-to-date with the latest tools, techniques, and best practices in data science. As a junior data scientist, I am eager to contribute to the success of the organization, and to grow both professionally and personally through challenging and meaningful work.

Data Scientist

EDUCATION

Bachelor's Degree in Mathematics (2017-2020)
University of Jordan, Very good Rate 3.33

COURSES & CERTIFICATES

Orange coding academy / Data Science Course
Feb-2023 to April-2023
 A two-month intensive course about Data Science, Python, and Machine Learning.
Graduation project :
GitHub link: https://github.com/soukainaghafel/Orange-.git

English Today USA's Ultimate English Boost
Jan/2023 to March/2023
An English course focused on listening, reading, speaking, writing, grammar, and vocabulary. This course included live interactive classes with a professional English teacher from America.

English Conversation skills
Feb/2022 to March/2022
Held at Connect Academy Halls for a total of 22 hours

SKILLS

Technical skills :
Data Cleaning, Data visualization, Python, Pandas, Numpy, scikit-learn, Matplotlib, Data Analysis, Statistical Analysis, Machine learning.

Soft skills:
-Quick learner.
- Critical thinking.
-Able to get along with variety of people from different cultures.
