TAMARA ALSHABATAT

FULL-STACK DEVELOPER

PERSONAL PROFILE

I am a web developer with experience in designing and coding. I'm proficient in C++, VB.net, and PHP with SQL.

As someone who understands web application architecture well, I am capable of training others in general web development. I've worked with many development teams and can lead as well as be a good team employee. Using programs like HTML, CSS, JavaScript, PHP, Laravel, and React, I have built numerous websites and database systems.
